Antimalware Patrol

- Meet the Ishings -

We have created these visual icons that will allow you to follow in a very simple way the steps to follow in each of the activities.

Thanks to them, even the youngest members of the family will be able to know what to do intuitively.

And now, let's have some cyber fun!

Find

New mission for the AntiMalware Patroll!
Hello! I'm Antivirus. We've received a call at
the AntiMalware Patrol headquarters from
Planet CyberLand. It's in danger!

Do you remember the Malware Family?

Well, there are some little monsters who are friends of theirs and they are up to some mischief in CyberLand. They are endangering computers, tablets, mobiles and, most dangerous of all... people's secrets!

Also, we must be very careful because, you know what? They are real fibbers, and they are also experts in tricking people to steal their secrets.

This is definitely a mission for the AntiMalware Patrol! Let's catch them so they don't do any more damage!

Virus introduces you to the new characters!

Virus

Do you remember Virus? The smallest of the family and the best known by all. Don't be fooled by his size, since he can do a lot of damage, but he first has to get you to touch him.

Phishing

He is a great fisherman. He knows how to bait his rod well and he fishes a lot.. But not fish! Guess what he fishes for? Secrets! He likes to get attention and is always hustling. He lives in MailCountry and spends his summers fishing in WebCity.

Mr. Smish

He is the writer of the group. He really likes to write messages and send them to lots and lots of people. But you know what? His messages are very dangerous because they have hidden traps.

Vishing

He's a chatterbox! Like his friend Mr. Smish, he loves mobile phones. He's an expert at telling stories on the phone, but he's a big liar. Be careful not to believe what he tells you!

Spoofing

He is the king of fancy dress costumes. He is very mischievous and with his costumes he transforms himself into anything he wants to commit his misdeeds. Don't fall into his trap! He lives in WebCity

Catfish

He's neither a fish nor a cat. He's Catfish! He's a real, real liar. He spends his days on NetMontains. That's where he comes up with characters to fool people. He makes you think he's your friend, but he's not. Don't believe his lies!

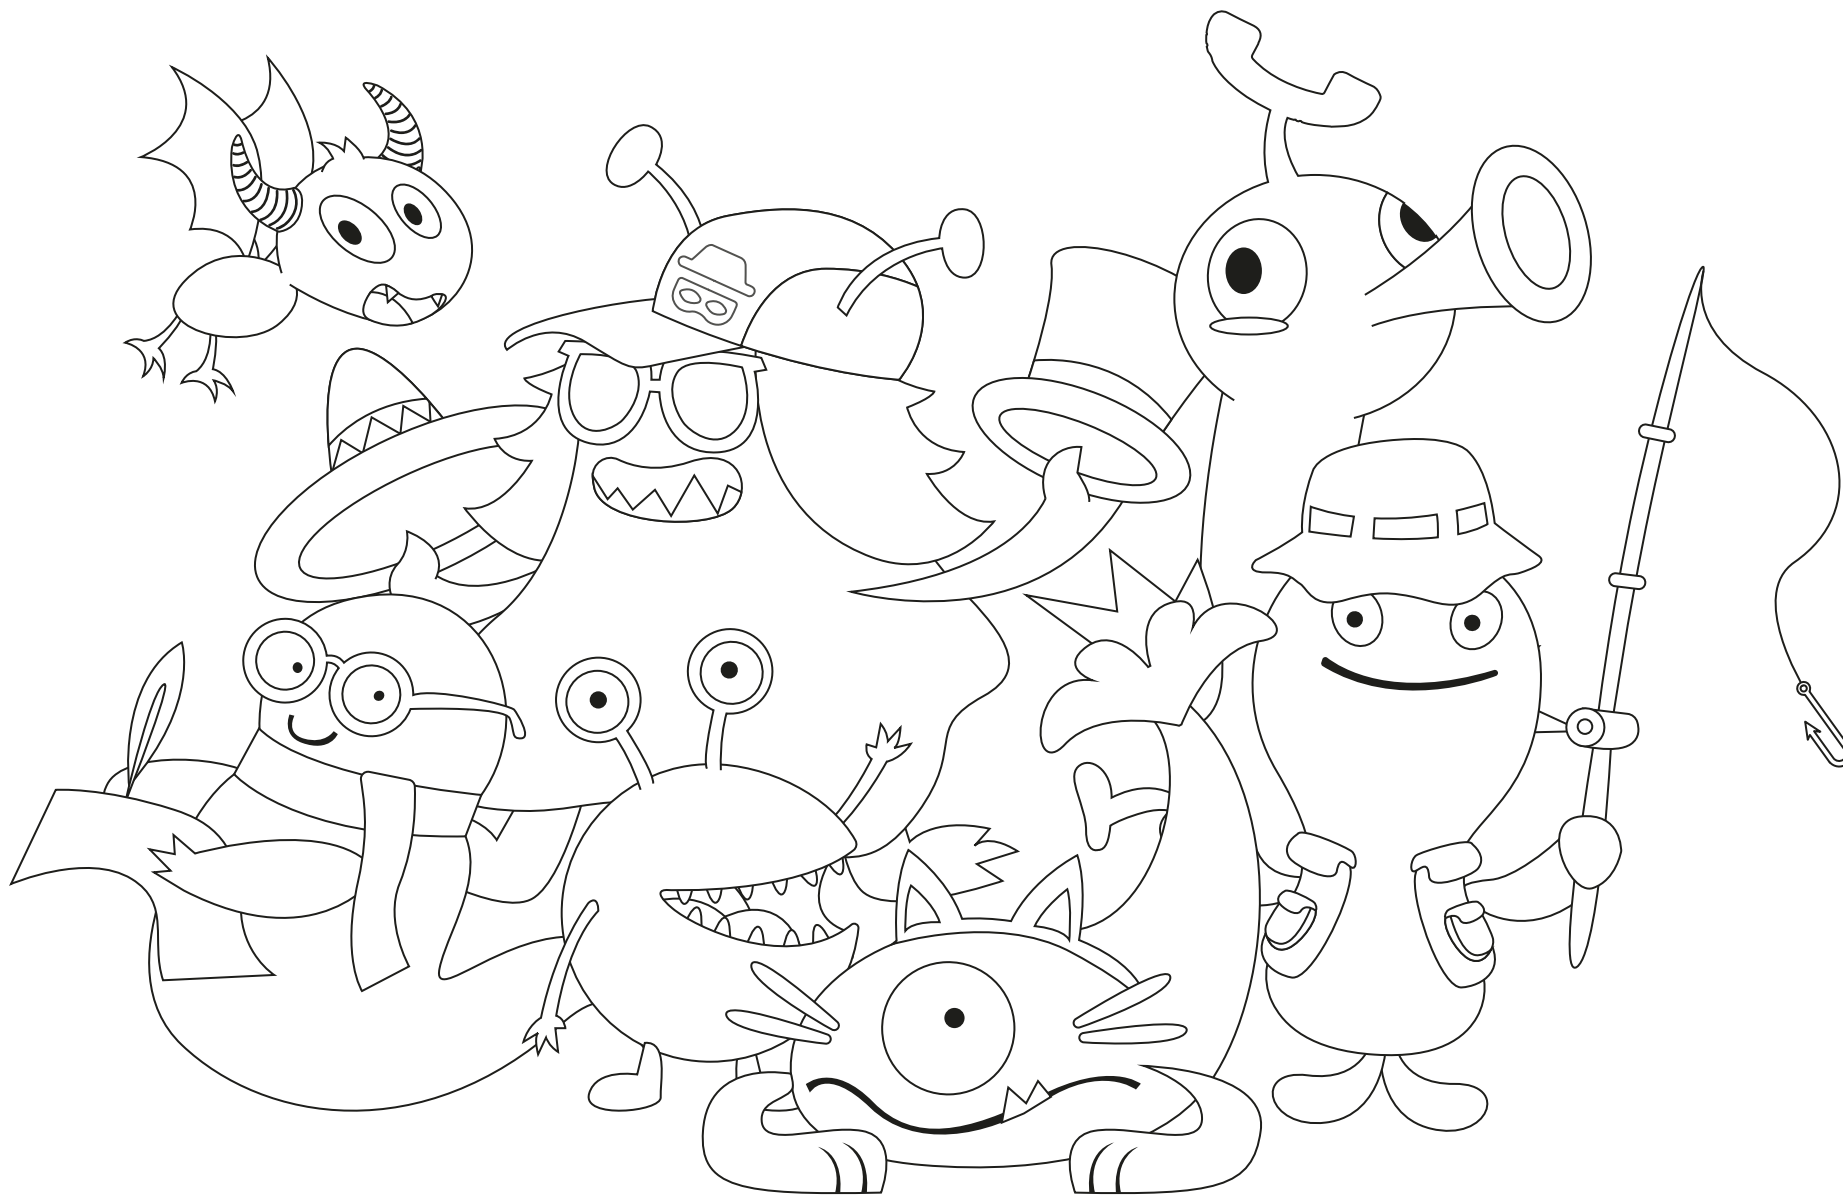

Shouldering

He is a professional gossip; he wants to know everything! He is restless, he goes from one place to another looking over people's shoulders trying to see their screens. If you are writing a secret, check behind you, he might be spying on you!

Color the monsters. Use any color you want!

Would you be able to recognize all the Ishings?

M A S Q I I H G T R O A H E G
E E M M T Z N A T G O I N D N
M R S M I I H A T N O S H D I
S A S B F S H B E I O G O D R

P H I S H I N G A B F R T S O
A M T O O K C A T F I S H D H
M R S M I S H A T F O S H D S

Let's find out!
Can you find the 6
hidden names?

Catfish
Phishing

Shouldering
Vishing

Spoofing
Mr. Smish

But how did Virus meet these monsters? You will find out as you go along! Read the story carefully.

CyberLand is a magical planet. You can do many things there: read, play games, watch videos, listen to music, and even talk to friends. It's a fun place!

But a few days ago, Virus, from the Malware Family, released some of his friends and together they are invading the planet CyberLand.

They keep doing misdeeds and are causing a lot of trouble.

We know that Virus is with Phishing in MailCountry, a city in CyberaLand full of envelopes and messages. They are going together to find a place where Phishing can use his evil powers.

- Phishing, what is your best power? - Virus asked.
- I love fishing.
- And do you catch a lot of fish?
- No, I don't! I fish people's secrets. I send out fake e-mails pretending to be someone else to get passwords, information, and even money!
- Cool! We're going to have a lot of fun. I know the perfect place for you to use your powers. - Virus told him.

Virus and Phishing had a great fishing day. Bad news for the citizens of CyberLand, who were running out of secrets. Phishing was fishing everything.

- I'm going to keep on going, I still have a lot of friends to visit to continue doing evil in CyberLand. Do you want to join me? We can join our forces! -Virus said.

- But will there be more places to fish?
-Phishing asked.

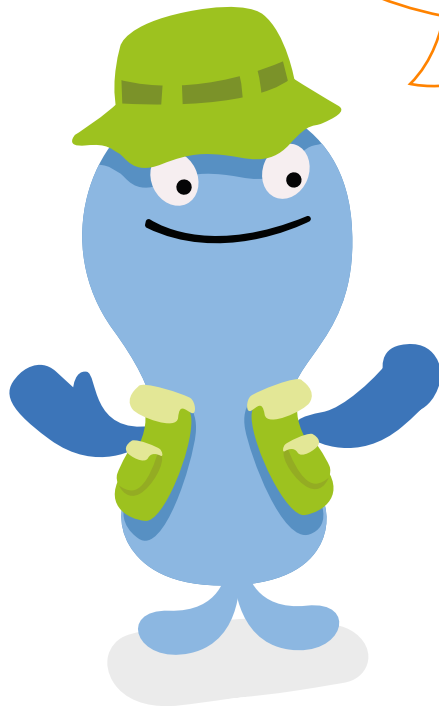

- Of course, there will! Let's go!

You know what Virus and Phishing have been doing!
But will you be able to answer these questions correctly?
Match the main character of the story with the correct option.

What is
my power?

Riding a
skateboard

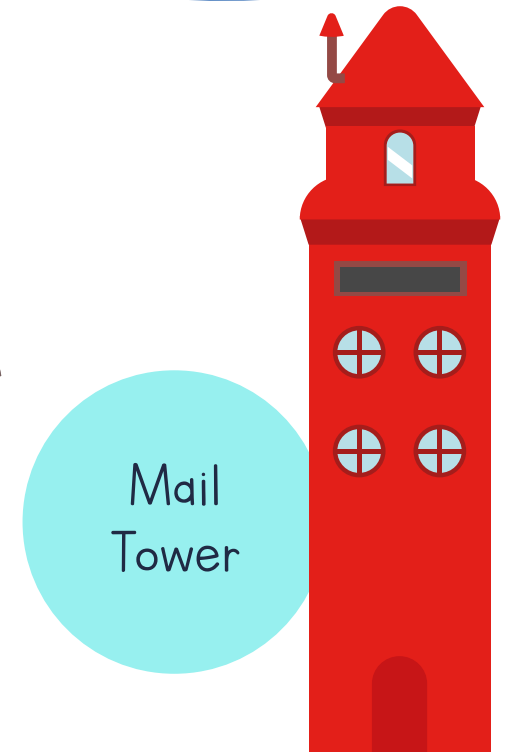

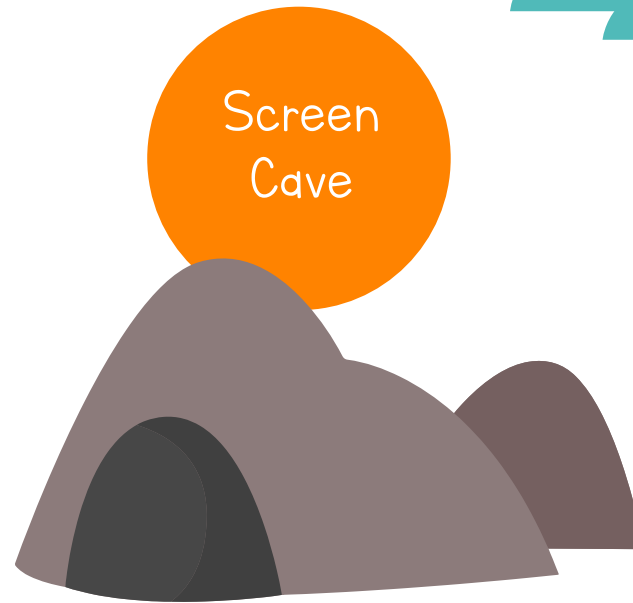

Eating
pizza

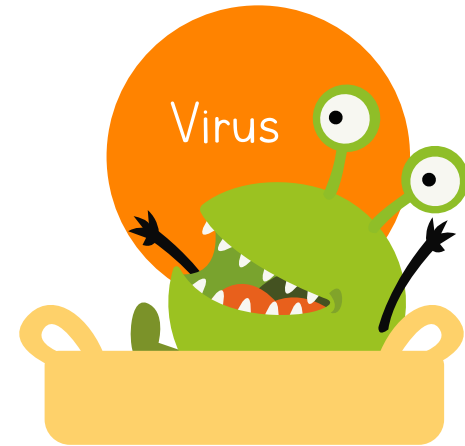

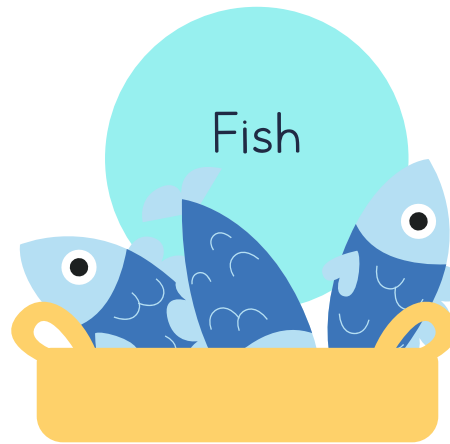

Fishing
secrets

What is the perfect place to fish?

What do I like to fish?

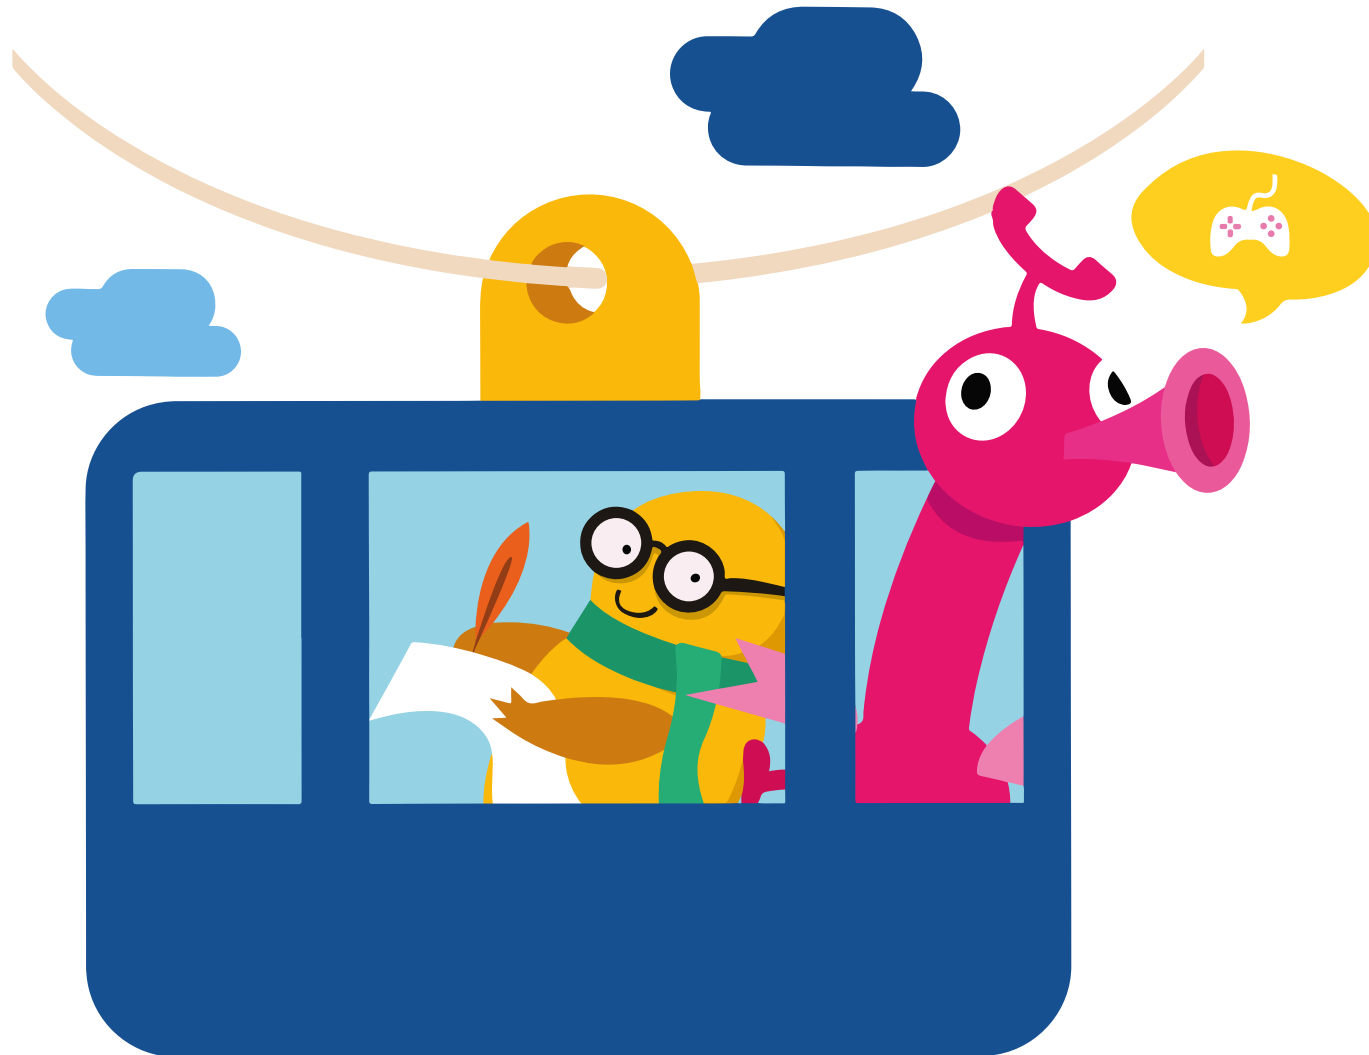

Look carefully at the drawing and try to remember all the details.
Then go to the next page!

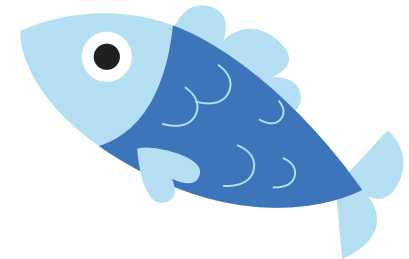

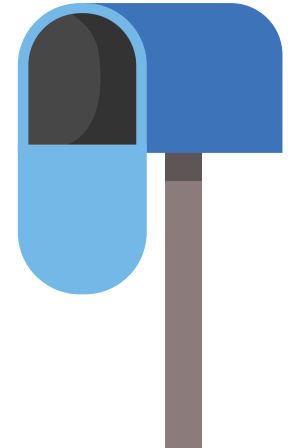

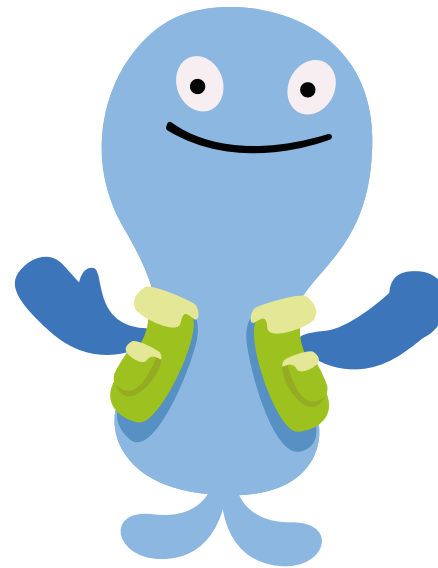

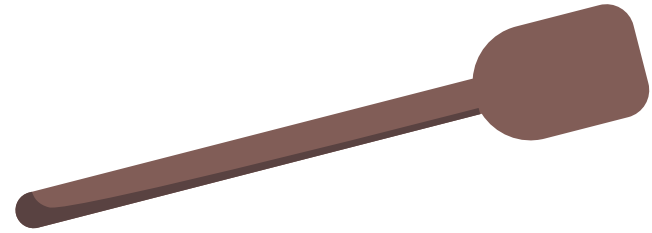

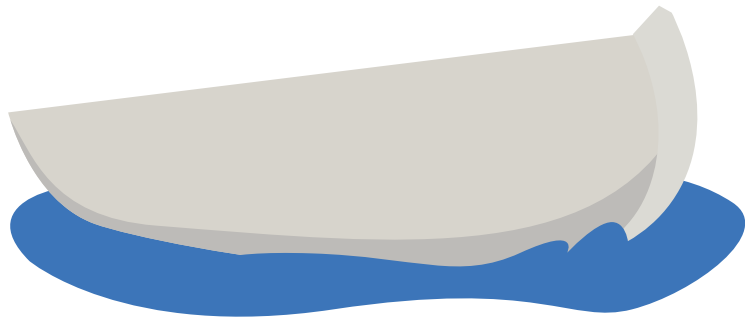

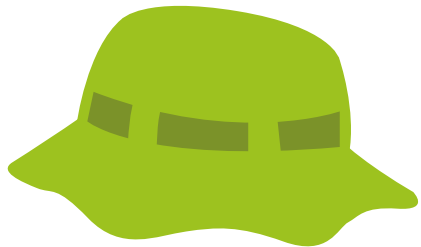

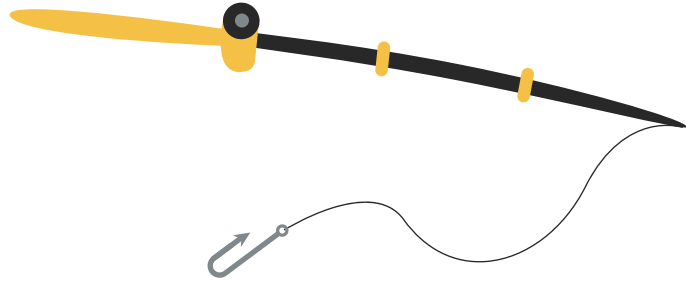

Have you memorized the drawing? Find the 3 differences with the previous one. But don't cheat! Go back to the previous step if you can't find the differences.

Draw a line connecting the objects that belong together.

Phishing enjoys his holidays on the Lake of Secrets fishing with his evil emails. Spot the 7 differences between the two scenes.

But how did Virus meet these monsters? You'll find out as you go along! Read the story carefully.

When they left MailCountry empty, Virus and Phishing headed happily for WebCity.

There are so many things there!

It's a city where there are lots of computers and they are all connected to each other.

A lot of data passes through its streets: games, videos, photos, music, films...

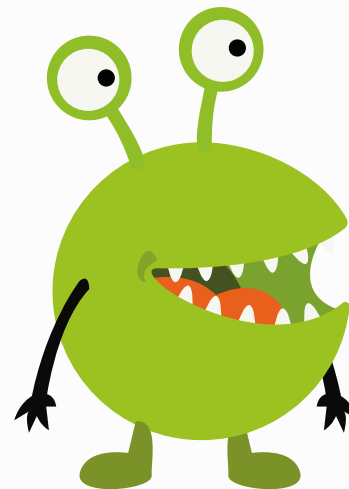

But beware,
AntiMalware Patrol,
these little monsters
want to keep on
doing mischief!

- So much data to fish! – Phishing
exclaimed.

- Wait a minute, we're going to look
for my friend Spoofing first. – Virus
replied.

- And who is this Spoofing?

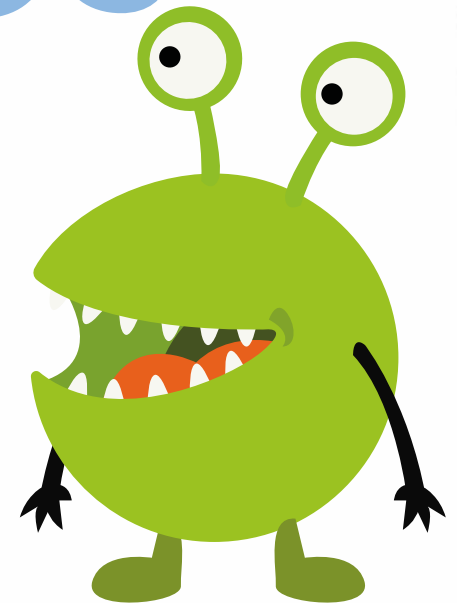

- He's a cybermonster like us, and he has a magical power: he's an expert at creating fake websites, so he can dress up as anything he wants and do mischief without anyone finding out. - Virus explained.

- And how can we recognise him?

- He always wears a red cap, although he changes it to pretend to be someone else. So, he won't be recognised! He's very clever!

- Well, let's go find him and get into mischief together! - Phishing exclaimed.

Will Virus and Phishing find Spoofing?

In the meantime, could you answer these questions correctly?

Match the main character of the story with the correct option.

What is Spoofing's evil power?

He dresses up as anything he wants

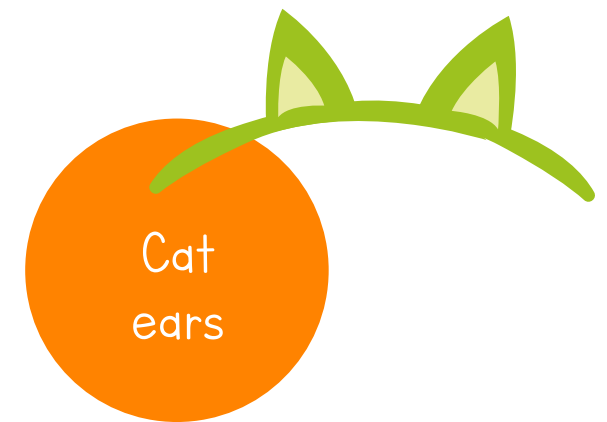

Speaks using only the u

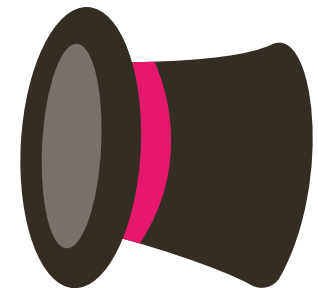

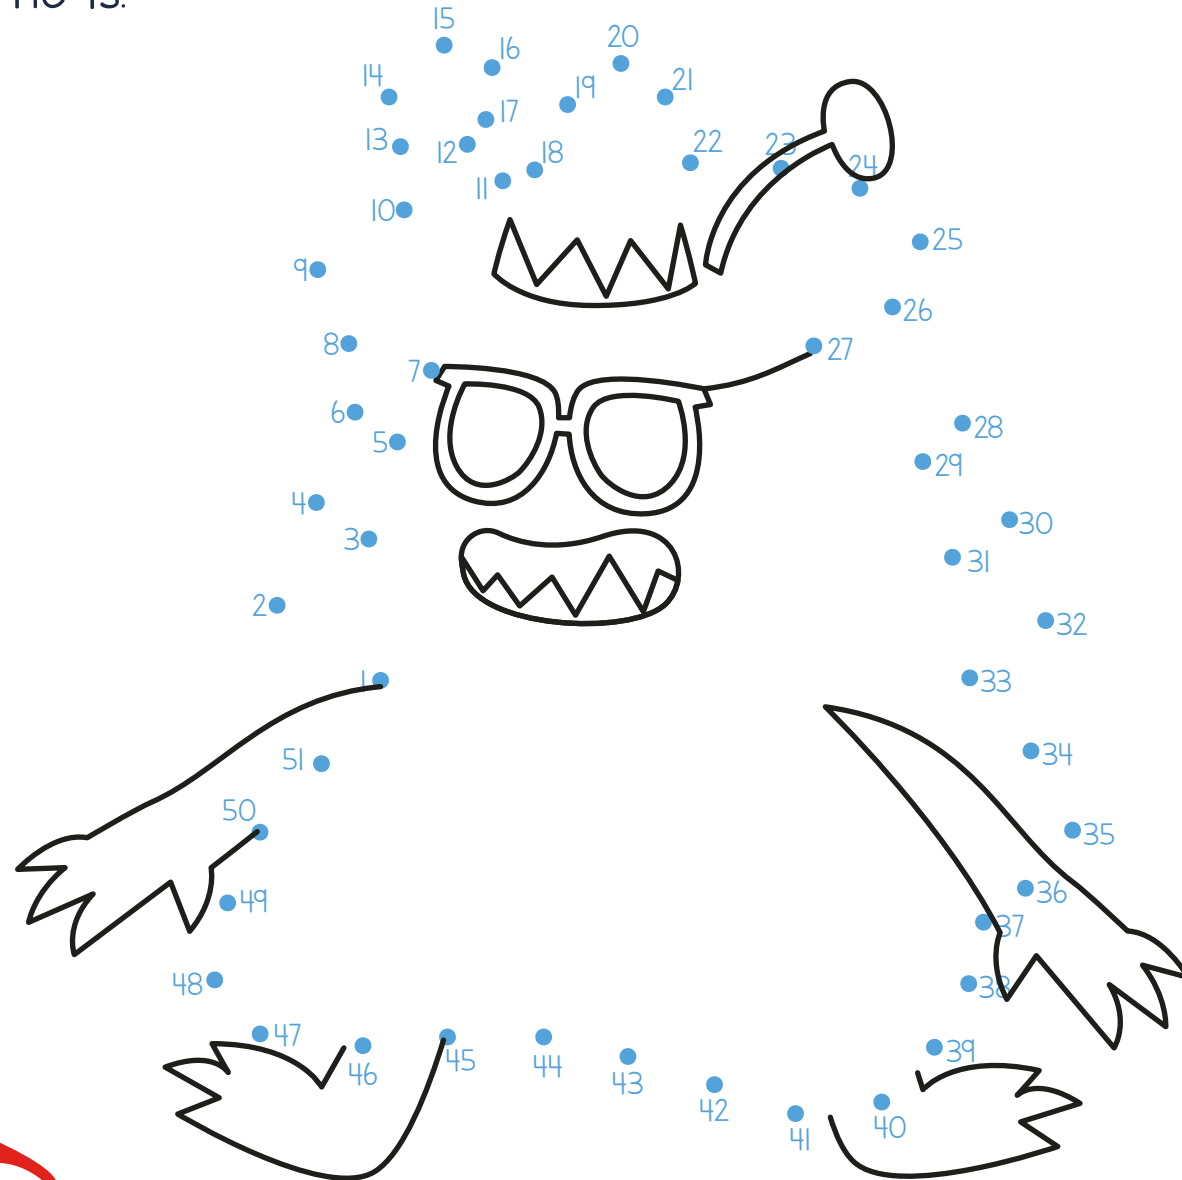

Walks on his hands

How would
you recognise
Spoofing?

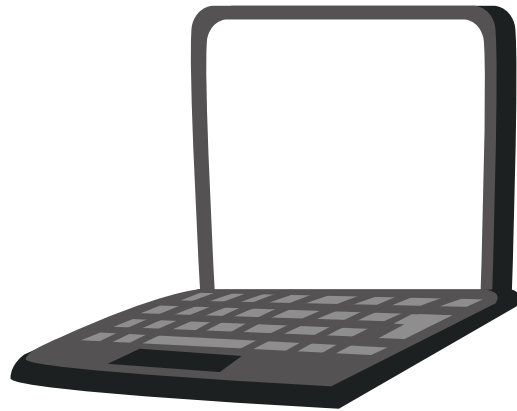

Which Ishing monster might this silhouette belong to? One clue is that he loves to wear hats and dress up in fancy dresses. Connect the dots and find out who he is.

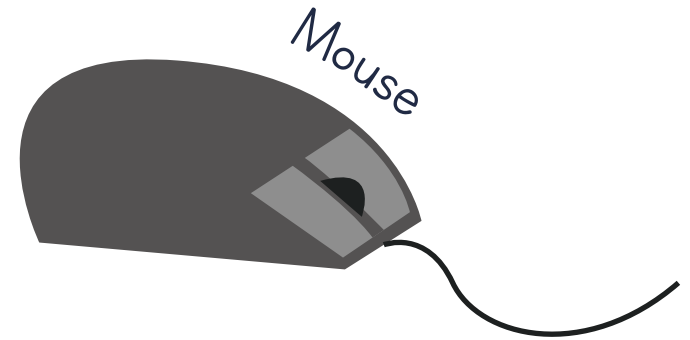

CyberLand is full of technological objects, but the mischievous Ishing always find a way to sneak in intruders. Can you identify the intruder? Cross out the one that doesn't fit.

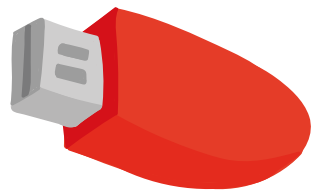

Laptop

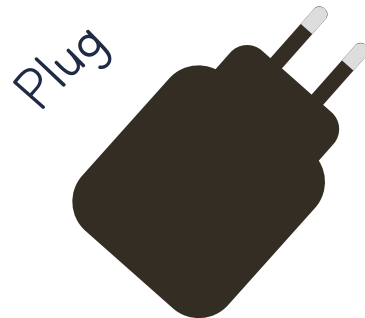

Mobile Phone

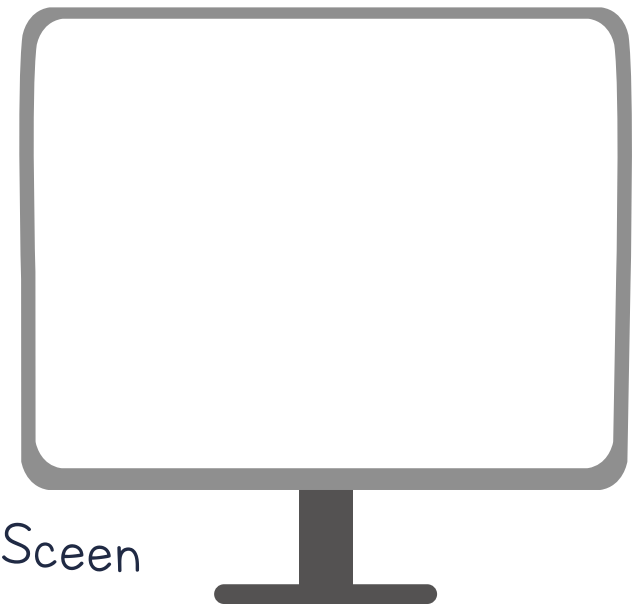

Mouse

Pen drive

Plug

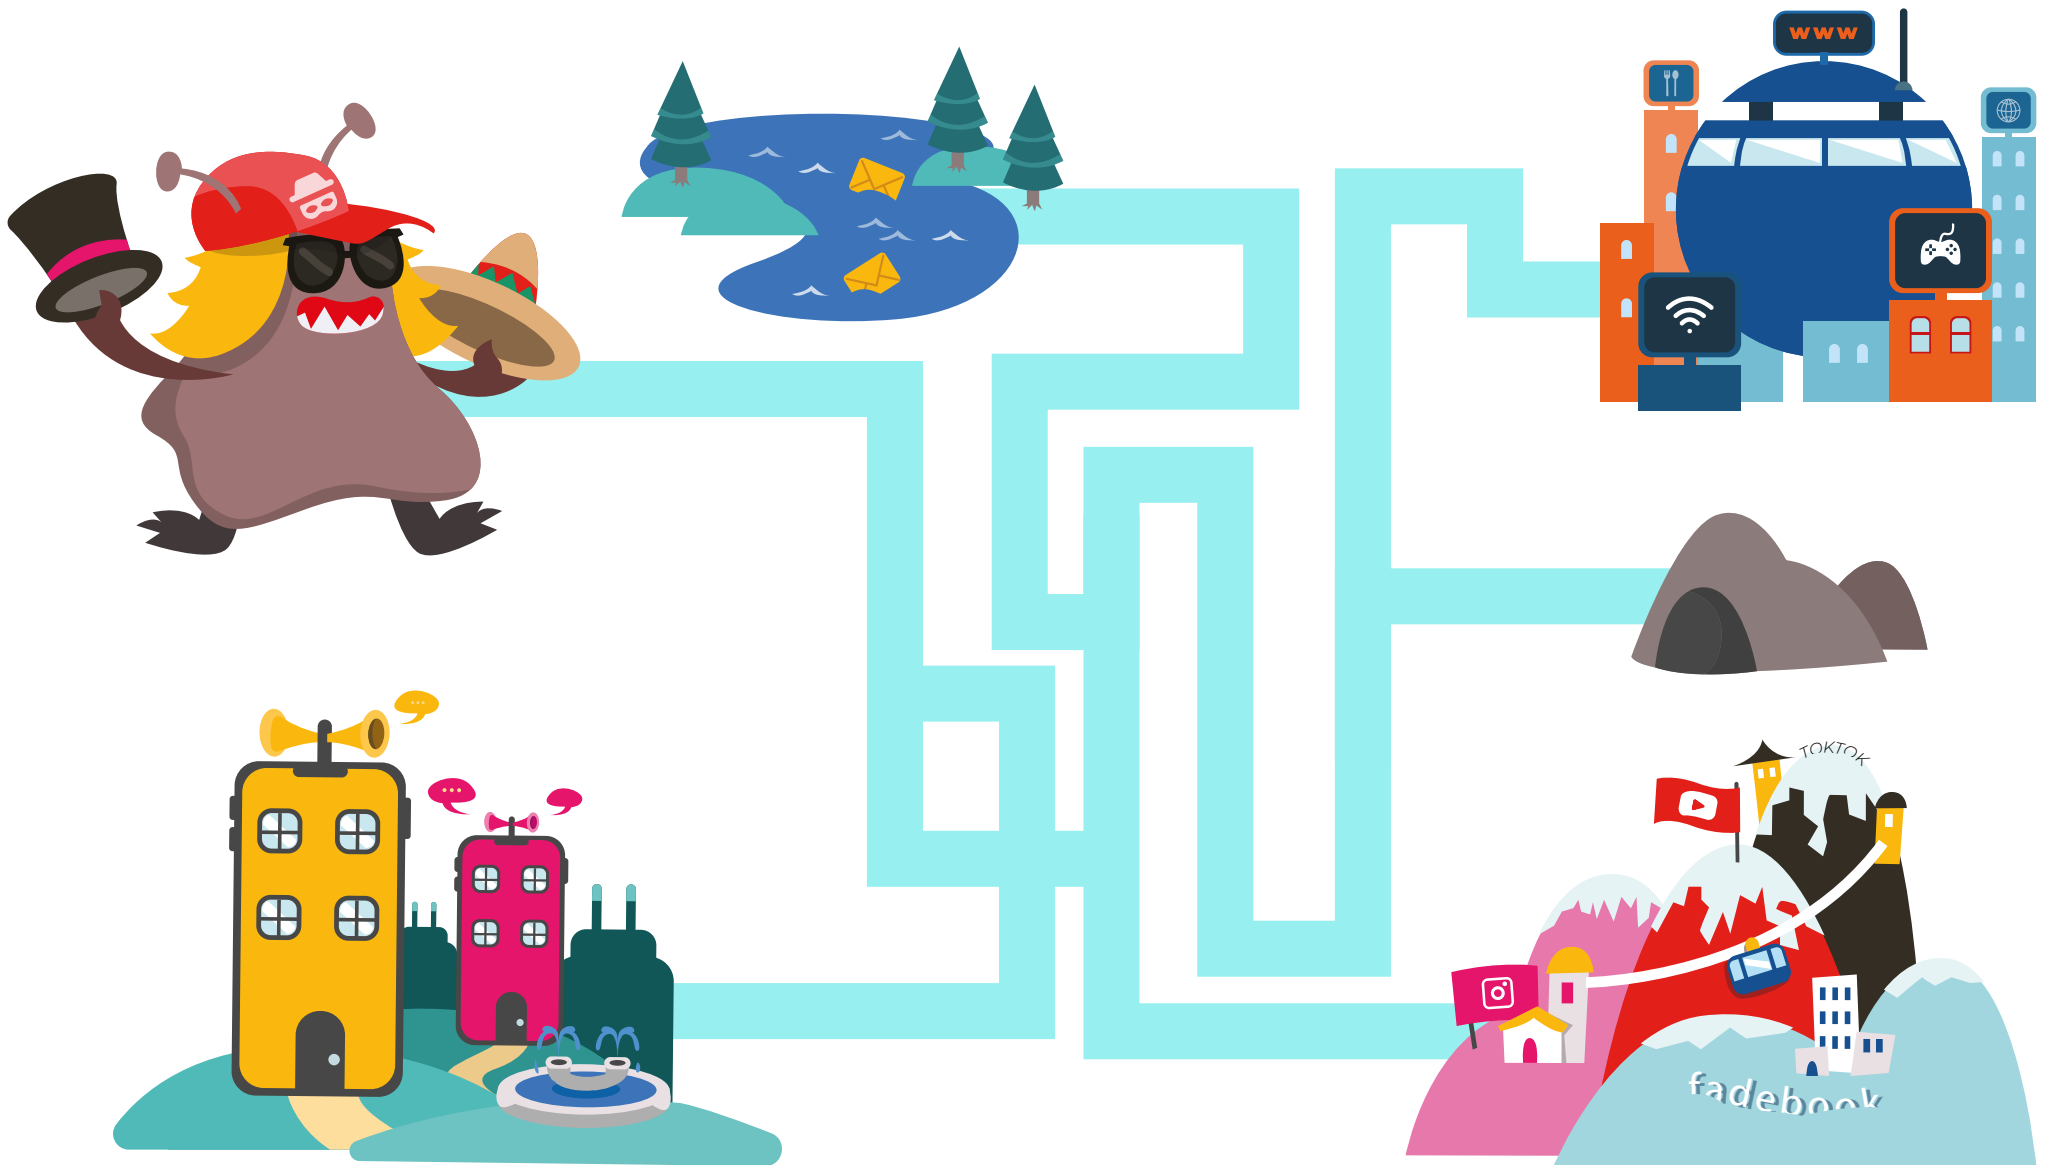

Sceen

Pencil

Spoofing is dying to cheat the citizens of WebCity, but he has forgotten how to get to his destination. Guide him in order to catch him, could you find the right path?

AntiMalware Patrol, we
have a mission: Stop
Spoofing!

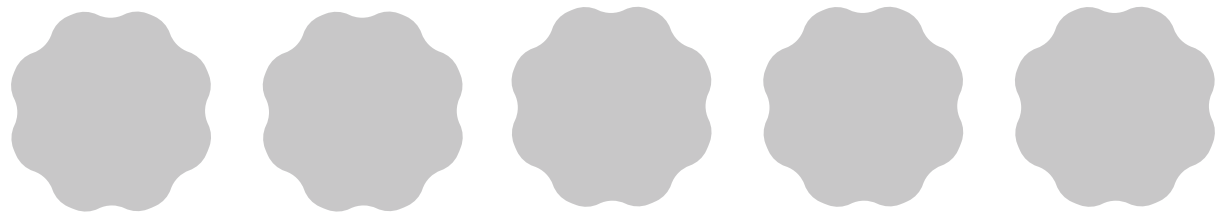

Find Spoofing before Virus and
Phishing do. Put a circle around him!

You have won the
"Anti-Spoofing" badge

Congratulations! You have captured Spoofing and he can't do any more mischief. You still have 5 more badges to go; you'll get them by catching the little monsters that are still on the loose. Go for it!

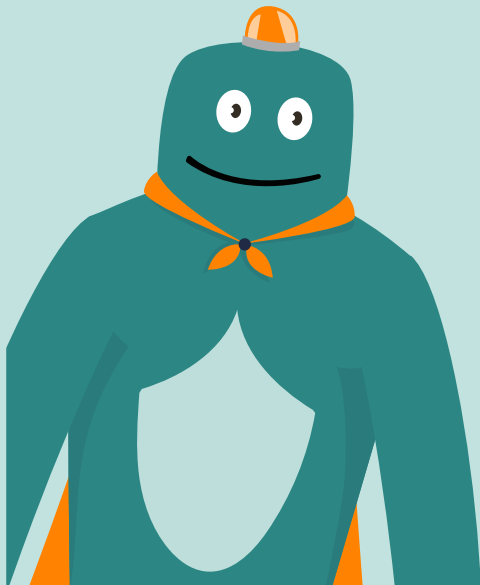

Fill out, cut, fold, and glue your updated AntiMalware Patrol ID card.

Fold along the dotted line and then glue the two back sides together.

Cut out here

Patrol

Laptop

Computer

Tip: If you want your ID card to be more durable, we recommend that you print it on cardboard or stiffer paper and/or laminate it.

To get access to the Anti-Malware Patrol headquarters and turn Spoofing in, you must have a special ID card. The little monsters have been trying to make fake IDs to sneak into the HQ. Could you recognize the fake IDs? Cross them out!

Three ID cards from the Anti-Malware Patrol are shown, each with a cartoon character, a name, a surname, a date of birth, an entry date, and a list of devices used. The cards are tilted and arranged in a cluster.

Card 1 (Antimalware Patrol):
Name: Emilia
Surname: Passwordoñez Segura
Date of Birth: 02 / 01 / 2009
Entry Date: 12 / 08 / 2016
Devices I use: Phone, Tablet, Laptop, Computer

Card 2 (Antivirus Patrol):
Name: Roberto
Surname: Videojueguez Smishez
Date of Birth: 16 / 10 / 2014
Entry Date: 20 / 11 / 2019
Devices I use: Phone, Tablet, Laptop

Card 3 (Antimalware Patrol):
Name: Samuel
Surname: Webdías Tecladón
Date of Birth: 22 / 12 / 2011
Entry Date: 04 / 09 / 2021
Devices I use: Phone, Tablet, Laptop, Computer

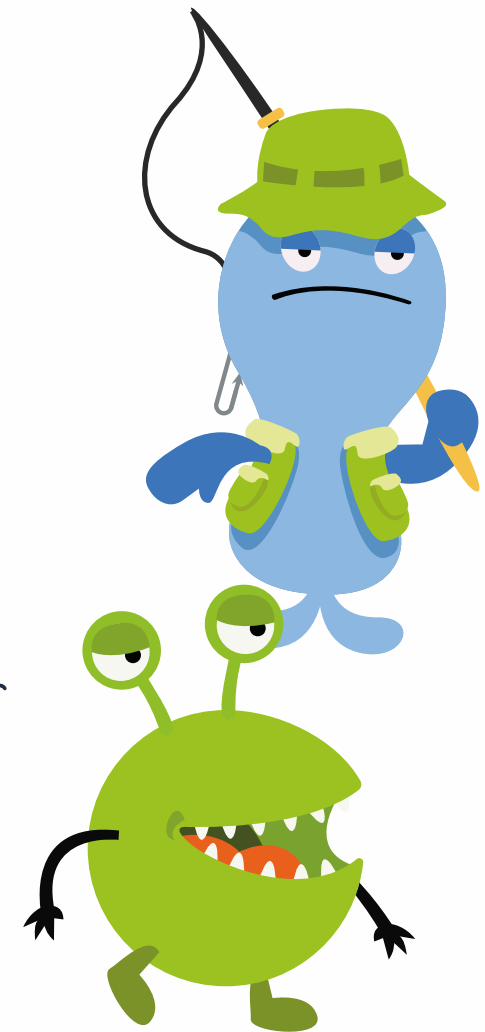

We captured Spoofing. But what happened to Virus and Phishing? Read the story carefully.

- We got away with it by a hair's breadth! Though you don't have any hair at all, Virus! – Phishing exclaimed.

- Yes, these AntiMalware Patrol guys have already caught Spoofing, we should be careful and hide somewhere else.

They left WebCity at full speed. They walked for several days. At night they used to sleep in some mailbox they found along the way and feed on the data that Phishing fished out whenever he had the chance.

- Finally, one morning, dirty and tired, they arrived at NetMountain. It is a very curious place, full of mountains and on each mountain, there is a social media platform.
- I'm hungry, Virus!
- Don't worry Phishing, we're in NetMountain. There are social media platforms everywhere, and do you know what that means?
- Yes! Lots of photos, games and videos that people share! And conversations! Yummy! My mouth is watering...

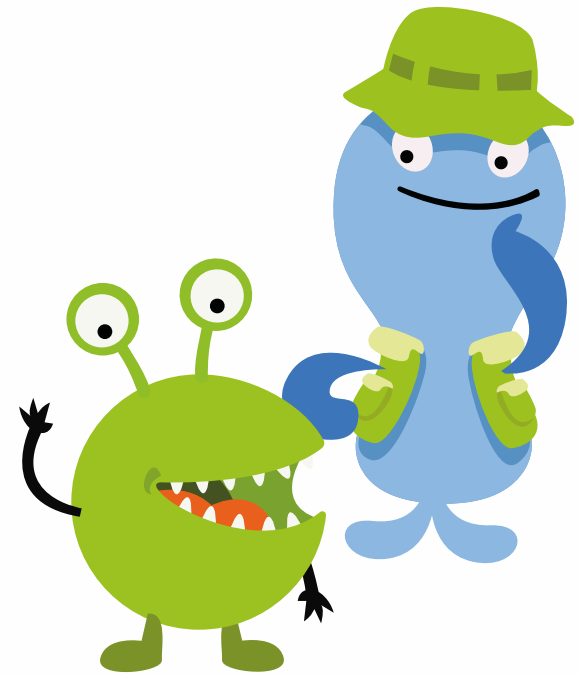

- Look! There's my friend Catfish! - Virus said.

- Cat? Fish? But is he a cat or a fish?

- Don't worry, everybody gets confused by my name! - Catfish said with a laugh.

- Well, let me explain it to you: if I tell you I'm a cat, I'm really a fish, but if I tell you I'm a fish, I'm a cat.

- That's crazy! It's so difficult to know who you really are! - said Phishing.

- Exactly, that's my super power. Nobody knows my real identity! I use social media to trick people. I create fake profiles and befriend them, but not for real. I tell them lies until I get what I want.

- The three of us are going to have a lot of fun! - Virus exclaimed happily.

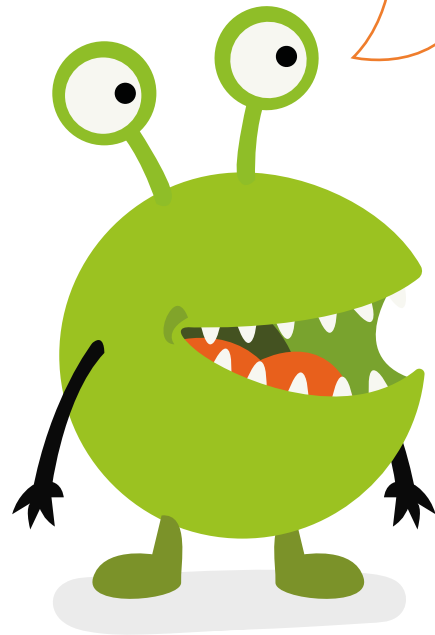

And so, they spent several days at NetMountain causing chaos on social media.

What a mess the monsters are making of NetMountain! But will you be able to answer these questions correctly? Match the main character with the correct option.

Is Catfish a good friend to humans?

Yes, he always tells the truth

No, he is a liar

No, because he smells bad

What's in the mountains of NetMountain?

Secrets

Laptops

Social Media

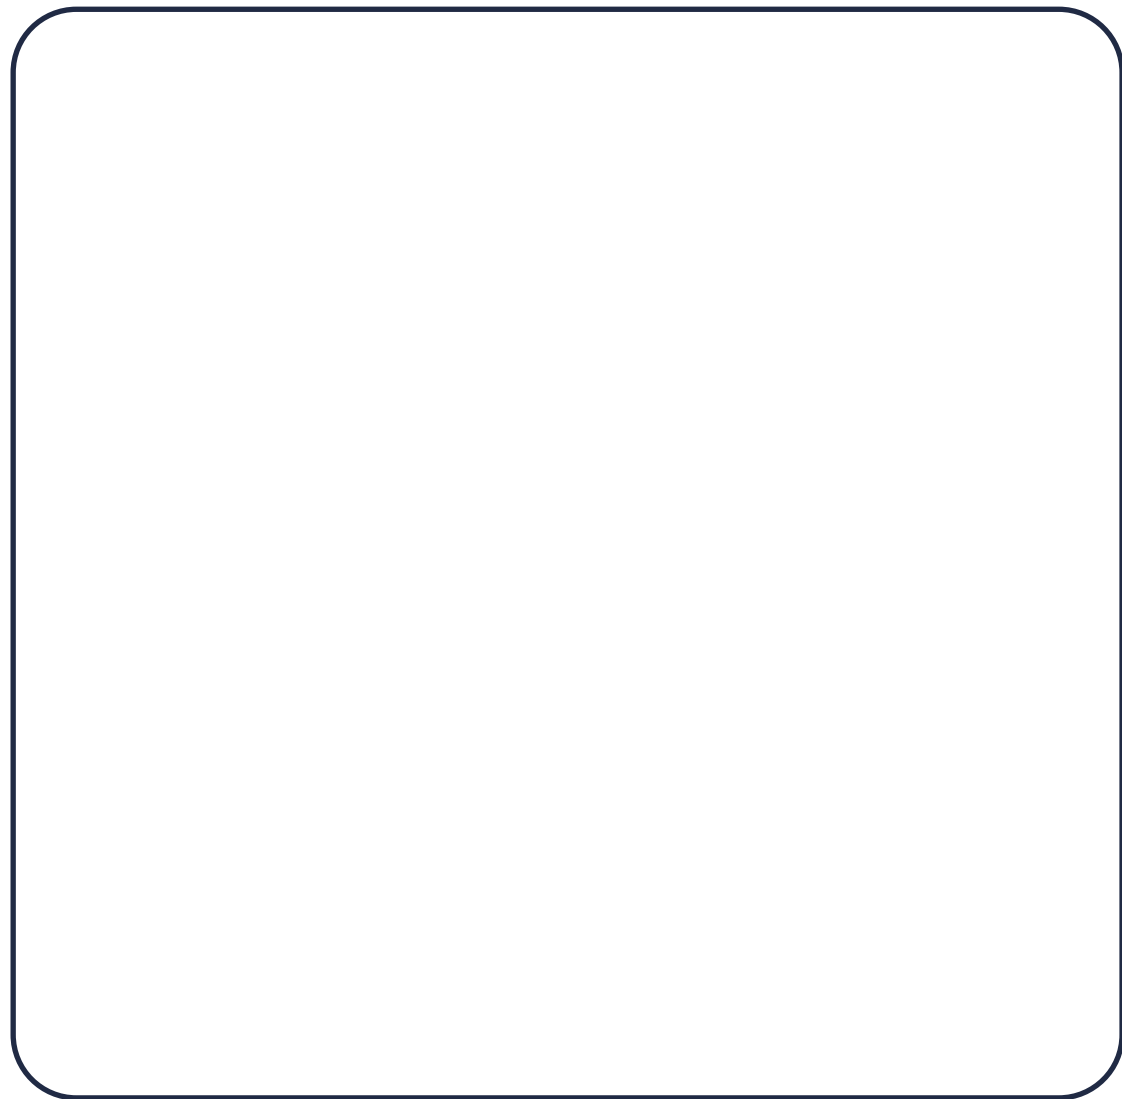

Catfish often lies about being a cat, but would you know what he looks like without his whiskers and ears? Draw him in the box.

Remember!

Draw him **WITHOUT** this

Catfish is a mix of a cat and a fish. Choose two animals and create your own little monster, don't forget to name it!

A large, empty rounded rectangular box with a dark blue border, intended for drawing or writing a story about a new monster.

Name:

Color the following picture according to the color code.

- 1 - Blue
- 2 - Green
- 3 - Yellow
- 4 - Pink
- 5 - Red

CyberLand is full of objects to dress up with and the mischievous Ishings know how to use them to trick us. Can you spot the intruder? Cross out the one that doesn't fit.

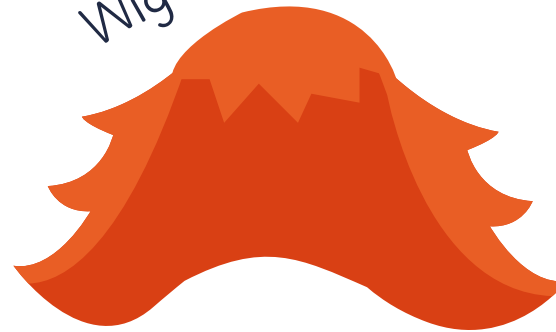

Shoes

Dracula's fangs

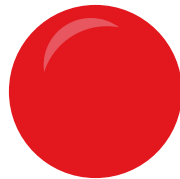

Magician's hat

Wig

Fake moustache

Clown nose

Cat ears

Antivirus has received a friend request from someone unknown, but it appears to be from Catfish. Circle the real Catfish according to the clues.

Help me catch Catfish red-“finned”!

We have the following clues to find him but remember that he always lies and we have to look for the opposite.

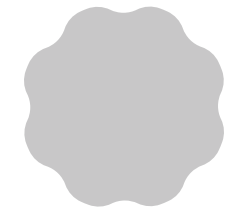

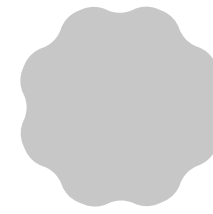

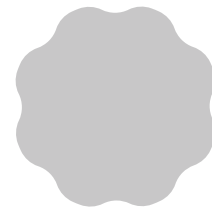

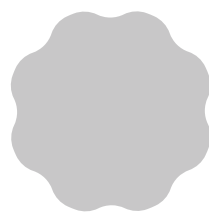

I have dog ears
I have no whiskers
I am blue

You got the
"Anti-Catfish" badge

Congratulations! You have captured Catfish and he can't do any more mischief. You still have 4 more badges to go; you'll get them by catching the little monsters that are still on the loose. You can make it!

Virus and Phishing have managed to escape again!
Find out how. Read the story carefully

Virus and Phishing were very worried, they knew that Antivirus and the AntiMalware Patrol were after them.

They had few places left to hide, but they headed for PhoneCity. Virus had some friends there.

PhoneCity is the place in CyberLand where all the mobile phones on planet CyberLand are located. It is a noisy and active city. Everywhere you can hear ringtones, notification tones, people's conversations... What a bustling city!

- Virus, my friend! It's been a long time! – a voice was heard in the distance.

- Mr. Smish! I've come with my friend Phishing.

- Pleased to meet you. - Mr. Smish said.

- Likewise, Mr. Smish! - Phishing replied.

- Mr. Smish is one of the oldest and most famous cyber monsters, he has been pulling prank calls for a long time.

- And what is your cyber power? - Phishing asked curiously.

- Do you know about mobile phone messaging or SMS?

I love writing messages and I send them to lots and lots of people. The funny thing is that I hide traps to break their mobile phones or take away the things they have stored on it.

- Suddenly, there was a sound of a loud voice...

- Who's that annoying guy who won't stop talking? -
Virus asked.

- That's my new friend Vishing, we work together a lot,
but he won't stop talking. Come here, Vishing! - Mr.
Smish said.

- Hi Mr. Smish! How are you? Are these your new
friends? They seem nice. I'm Vishing, nice to meet you.
Are you new around here? What are your powers?
Do you know any funny stories? I do! I'll tell you a
story. It all goes back 10 years... - Vishing began to tell.

- I already have a headache! - interrupted Mr. Smish.

- Well, let me tell them about my evil power...

- OK, but don't chatter, we all want to have dinner!

- As you have noticed, I love to talk. I call people to tell them stories, but they're all lies, so I trick them into doing what I want.

- So, the two of you get up to your mischief on the phone? Interesting... - Phishing commented.

- That's right! Vishing, shall we give them a demonstration? - proposed Mr. Smish.

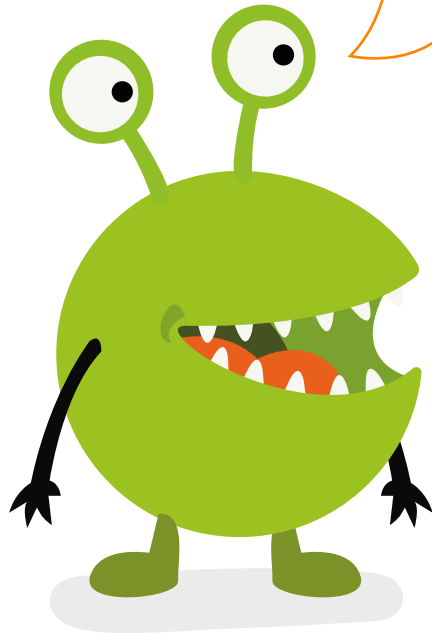

- Please! - Phishing asked.

What demonstration will Mr. Smish and Vishing have prepared? In the meantime, could you answer these questions? Match the main character of the story with the right option.

Who is the one who is always talking?

Phishing

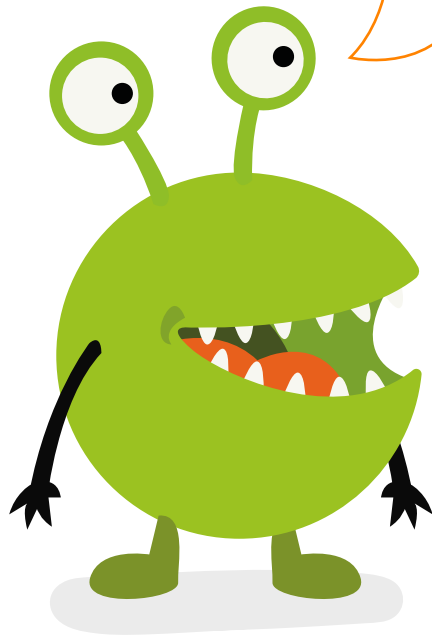

Vishing

Mr. Smish

Who likes
to write?

Mr. Smish

Vishing

Catfish

Where do
Vishing and
Mr. Smish live?

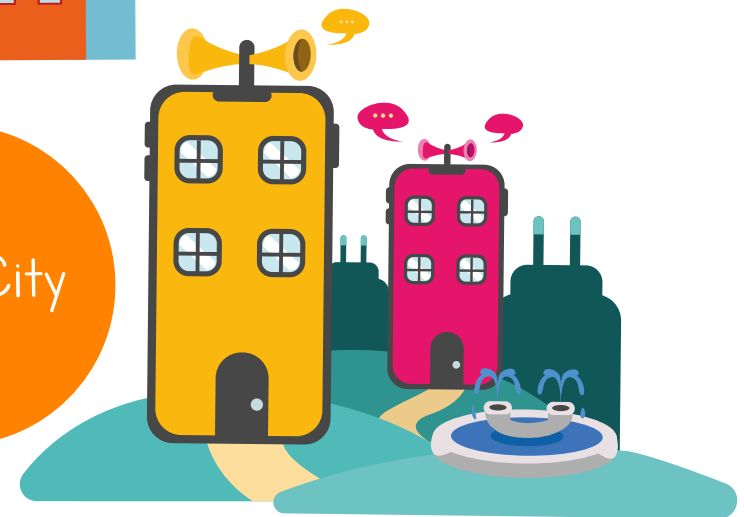

WebCity

NetMountain

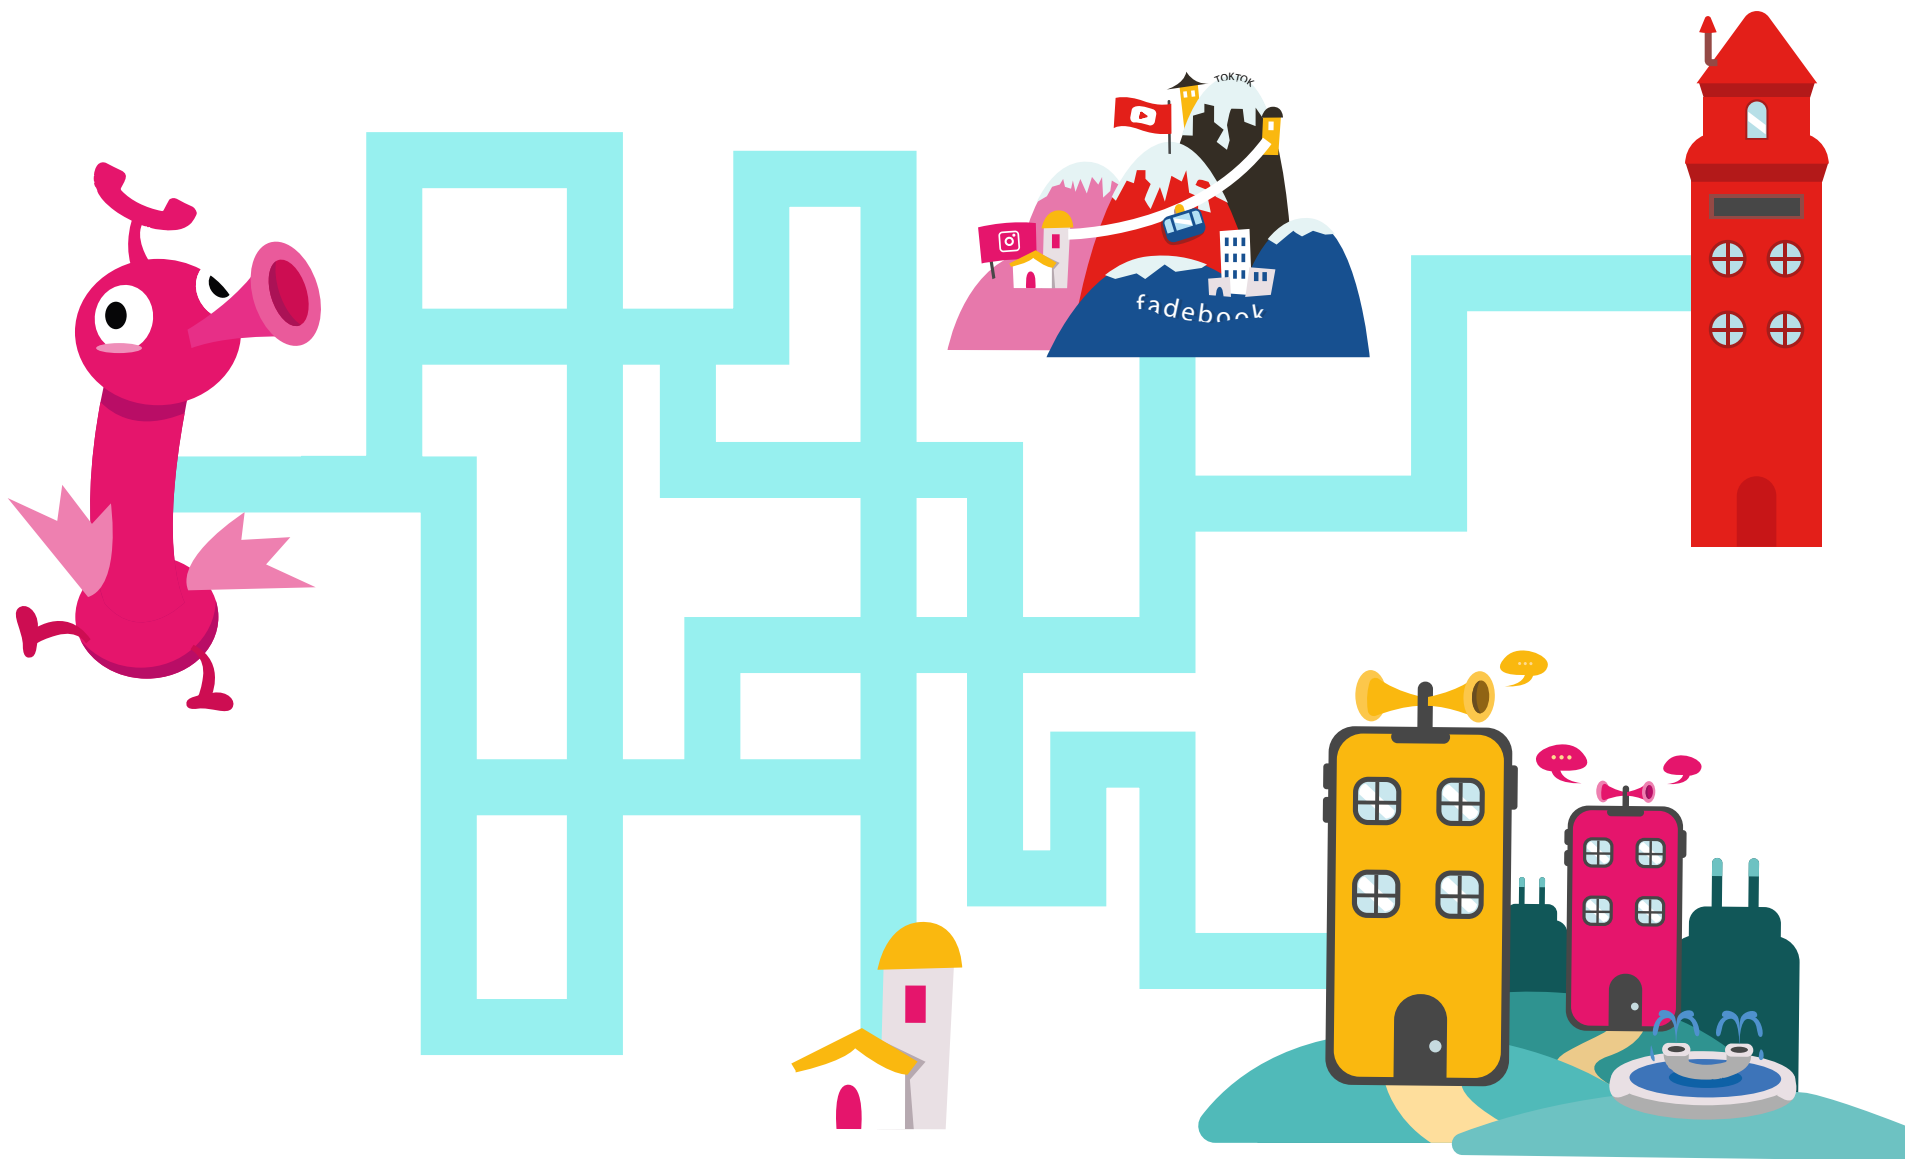

PhoneCity

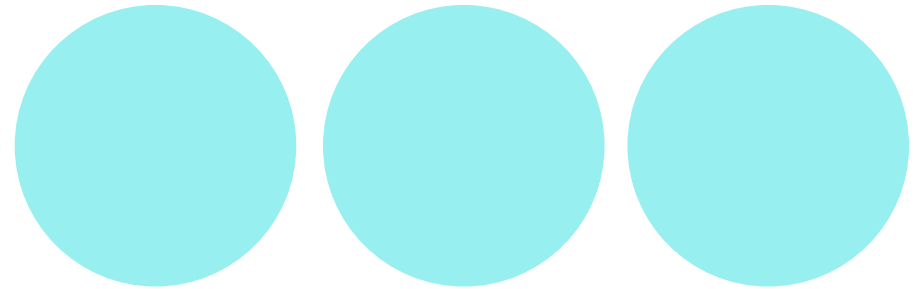

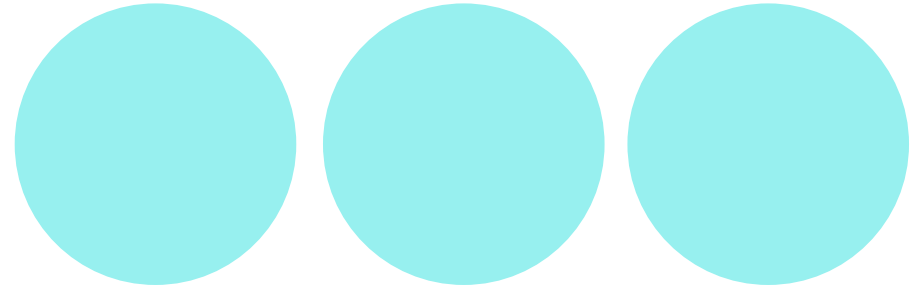

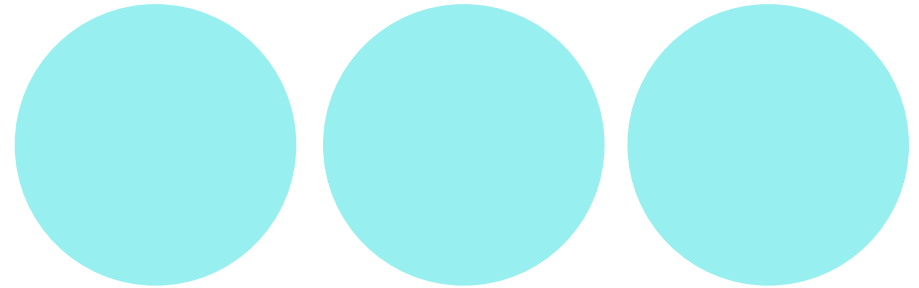

Vishing has a story to tell his neighbours in PhoneCaity. Help him find the right path.

Complete the sequence of monsters. Cut them out from page 2 of the "Cut-outs" section and stick them to their corresponding places.

Mr. Smish loves to write trick messages to fool the citizens of CyberLand into paying attention to him. But he has run out of inspiration, so help him write a funny message.

Hi, I'm... _____

Did you know that _____

_____ ?

Hurry up and come quickly,
you can win a _____

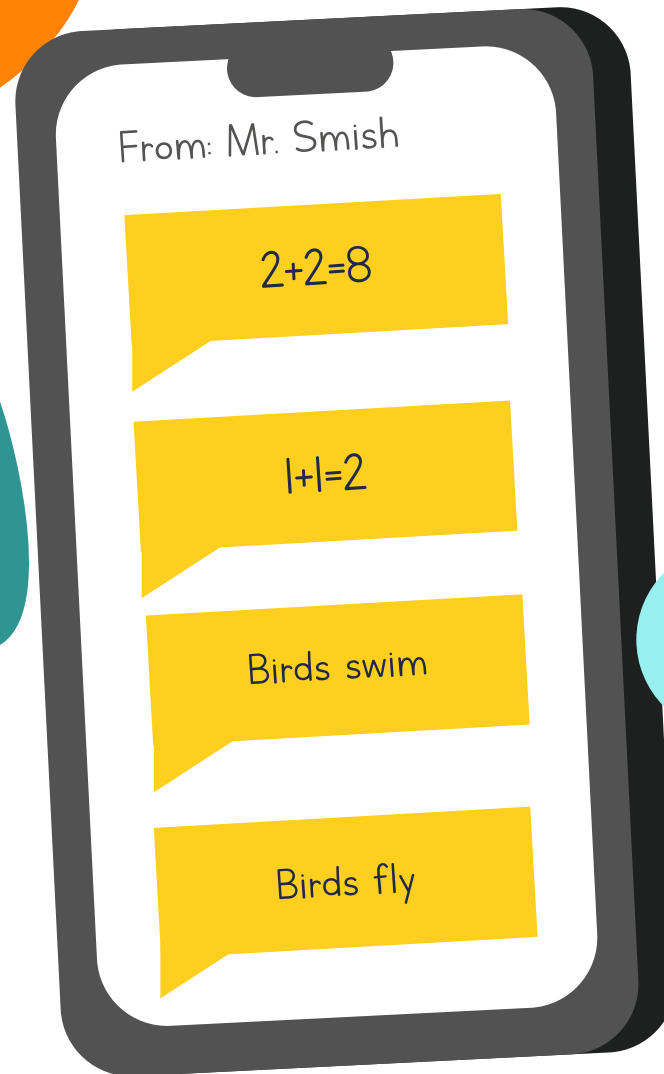

and what's more _____

What they do not know is that we know how to catch them. AntiMalware Patrol, we have a new quest!

Spot the SMSs and stories that are lies to catch Mr. Smish and Vishing. Circle them.

The sky is green because of the seaweed in the sea.

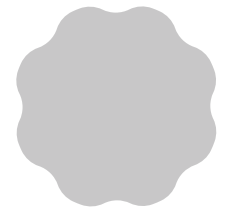

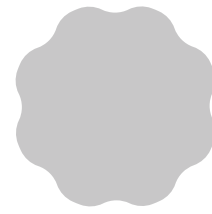

Almost all adults have mobile phones.

Libraries are where you buy medicines.

You won the
“Anti-Smishing” and
y “Anti-Vishing” badge.

Congratulations! You have captured Mr. Smish and Vishing and now they can't do any more mischief in PhoneCity. You only have 2 more badges left; you'll get them by catching the little monsters that are still on the loose. Keep on with the great work!

Virus and Phishing managed to run away again!
Read the story carefully.

Once again, Virus and Phishing had to run away. They got on the first bus out of CyberLand. They were nervous, they didn't even know where to go anymore.

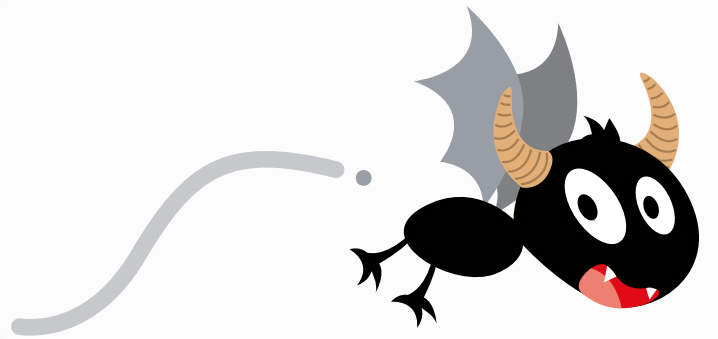

- Phishing, we have a big problem. Antivirus has managed to get together some very smart kids to set up AntiMalware Patrol.

- Yeah, they are putting a stop to our plans to destroy CyberLand.

- Did I hear destroy CyberLand? I want to know everything! - said a voice behind him.

- Yes, that was the plan. We wanted us Cybermonsters to be able to make mischief all over the planet, destroy computers, take all the secrets of the people... - Virus said almost in tears.

- Wait, who are you? - Phishing asked.

- I'm Shouldering, professional gossip, nice to meet you. Whenever I see someone with a screen, I sneak a peek over their shoulder and when they type in their secret keys and passwords, I can see them. I also peek over their shoulder to see everything they do. I love gossip!

- How nice, the three of us could get into mischief together! - Virus suggested.

- No way! Antivirus and the kids from the AntiMalware Patrol have already warned everyone to always look over their shoulder when they write or see anything secret, in case I'm watching, so I've been forced to close down my business - said Shouldering sadly.

- Jeez! Let's go find somewhere safe for now. Virus, didn't you have a family? -

Phishing asked. - That's right. Let's go back and I will introduce you to them. - Virus said more cheerful.

They were so relaxed that they didn't realise what was happening on the bus: the citizens of CyberLand had raised the alarm because, thanks to the teachings of the AntiMalware Patrol, they knew they were dangerous.

Antivirus was waiting for them at the next bus stop to catch them. Virus, who was very clever, managed to slip away, but first he promised Phishing and Shouldering:

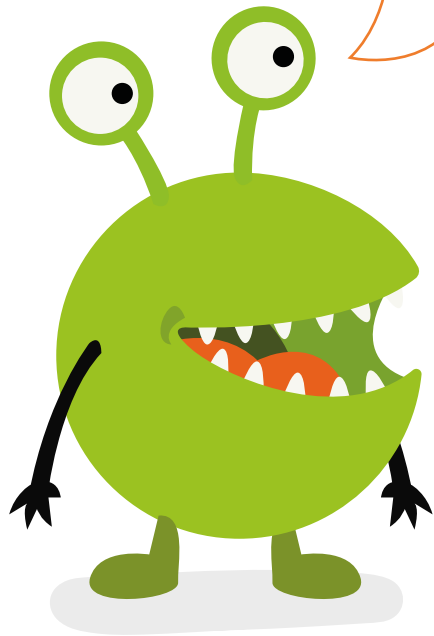

- I will rescue you! This isn't over! And so, he set off to join his family, the Malwares, with whom he would devise a plan to rescue the Ishings.

Could you answer these questions?
Match the main character of the story with the right option.

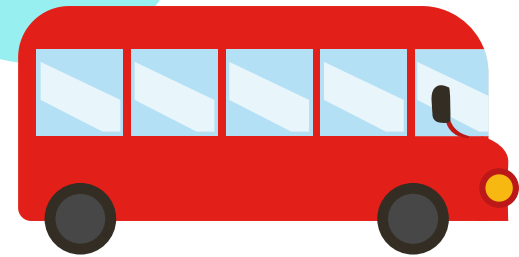

How did we
escape from
CyberLand?

Plane

Bus

Car

What do I do?

zzz

World sleep
champion

Elite
athlete

Professional
gossip

Who managed
to escape?

Virus

Phishing

Shouldering

Antivirus knows he needs to be careful when typing his password into his computer as Shouldering could be lurking nearby. Spot the 7 differences between these two pictures.

Let's create strong passwords to make it very difficult for Shouldering to guess! How?

1. Go to pages 3 - 7 of the cut-outs and assemble the dice.

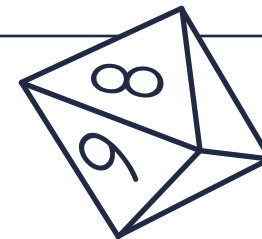

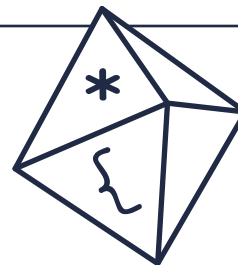

2. Look at the example. You will see that each one has different pictures. Roll them and write down what you get.

The more times you roll the dice, the longer and more secure your password will be! And the less sense, the better!

3. Now create 3 more passwords. You can use this method to create your own passwords! But never write them down. Try to remember them!

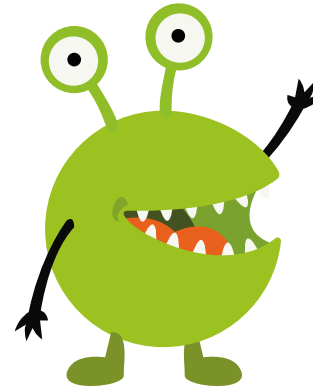

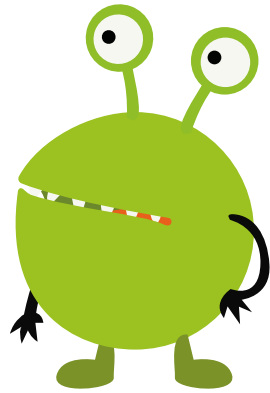

f3starBdog?5sQ*sol

Write down here the passwords you get.

We've captured a lot of Ishings! However, some of them look happy, I'm sure they're up to something. Could you put a circle around the little monsters who are smiling?

Today we bring you something very special: an Ishings memory!
Before you start having fun, follow these instructions.

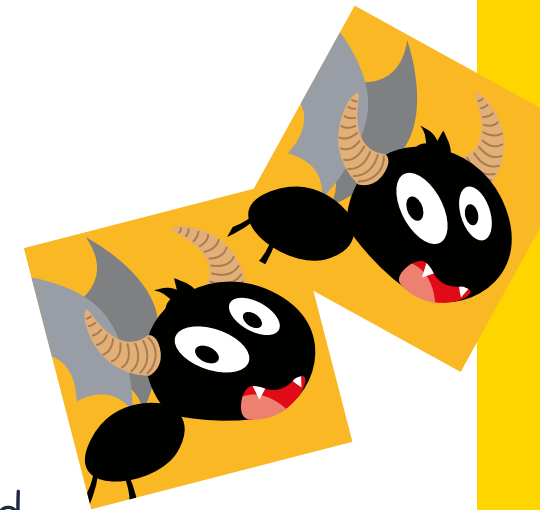

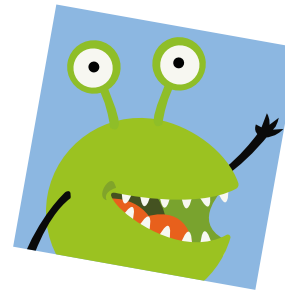

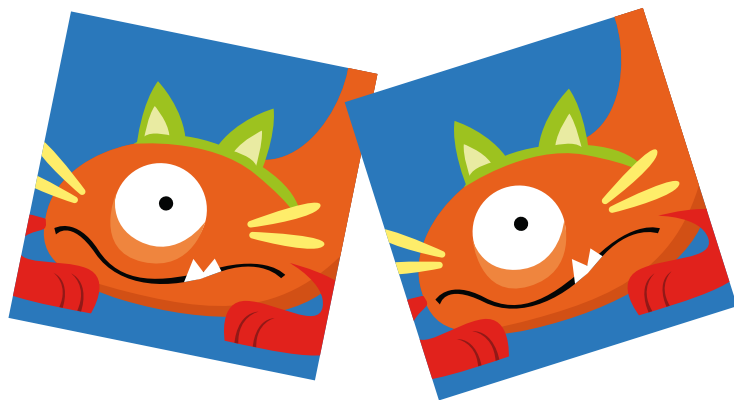

1. Go to pages 8 to 11 in the "Cut-outs" section.

2. Cut out the cards along the continuous lines - if you need help, ask an adult - you can laminate them to make them more resistant!

3. And finally, have cyberfun!

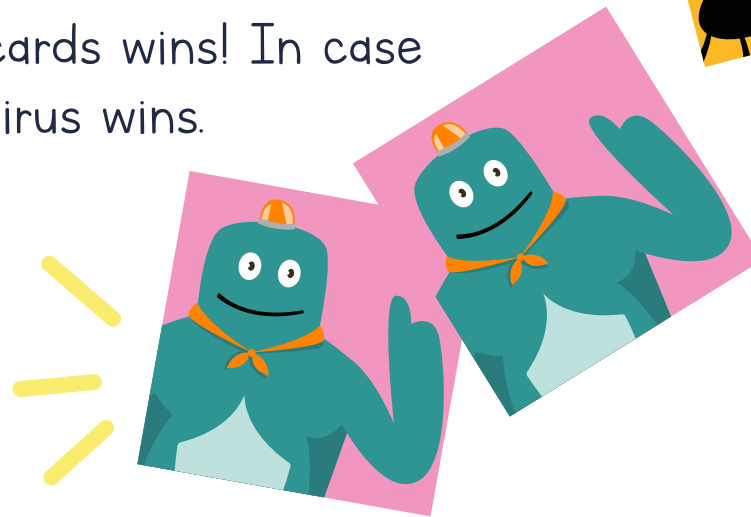

But... How do you play memory? It's very easy!

1. Place the tiles face down on the table and shuffle them around.

2. Each player will turn over 2 cards. If the character matches, they keep them. If not, turn them face down again.

3. Continue until there are no tiles left on the table.

4. Whoever has the most cards wins! In case of a tie, whoever has Antivirus wins.

You have won
"Anti-Phishing" and
"Anti-Shouldering" badge

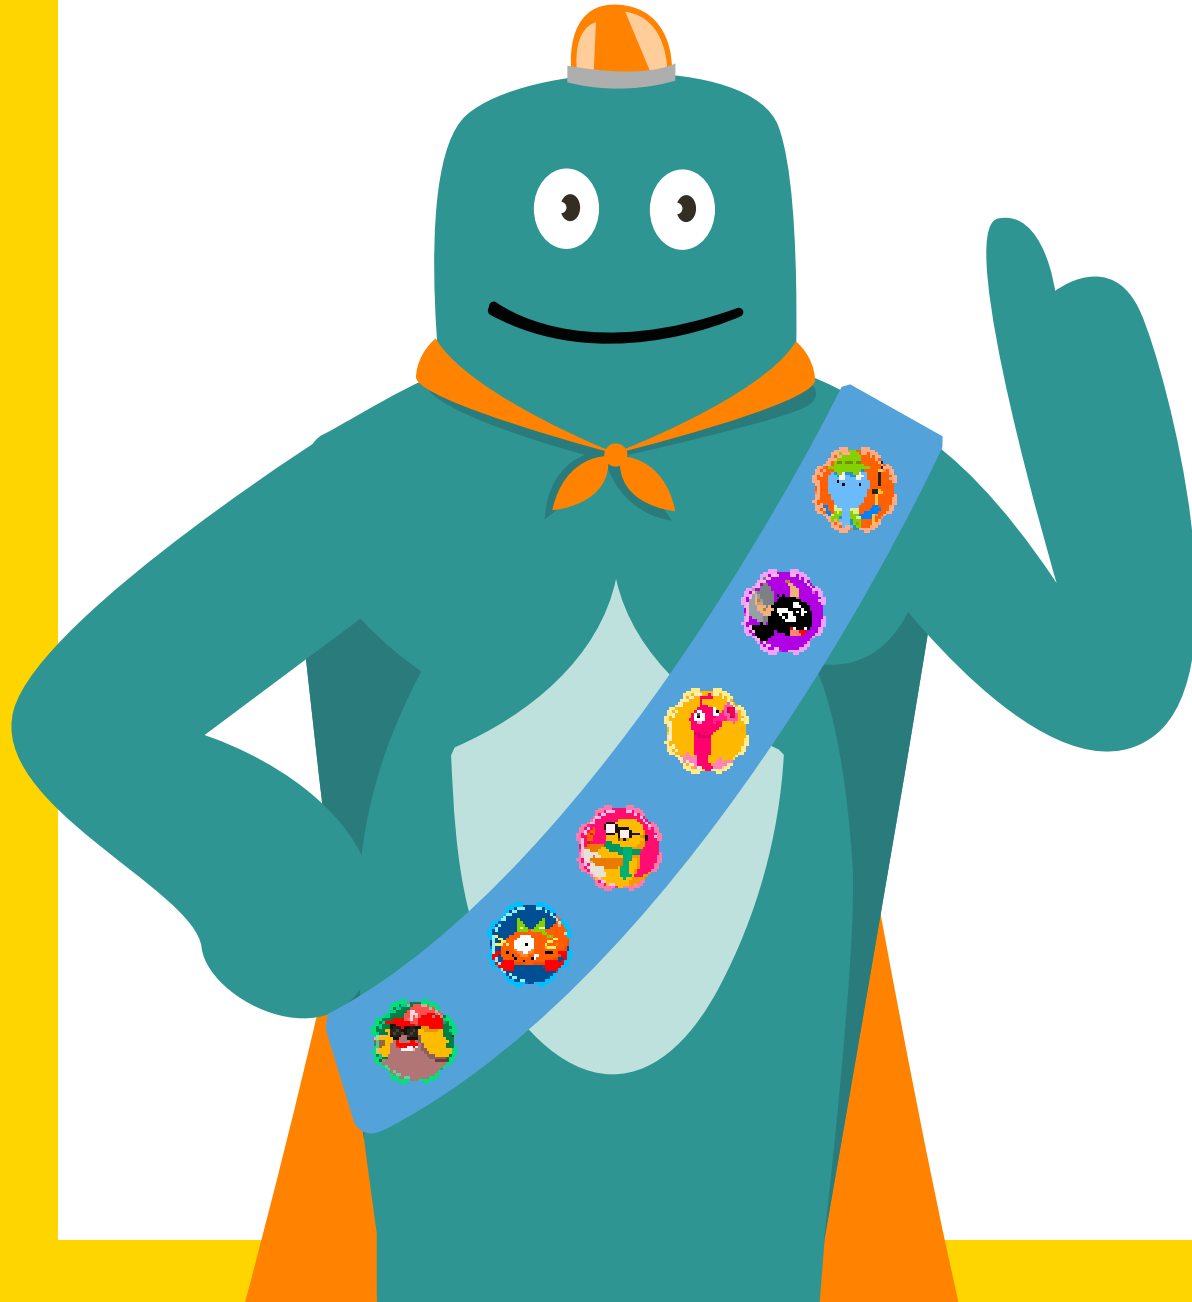

Congratulations! You've captured the remaining
monsters and they won't be able to make any
more mischief. Great work!

Thanks for being part of the AntiMalware Patrol!

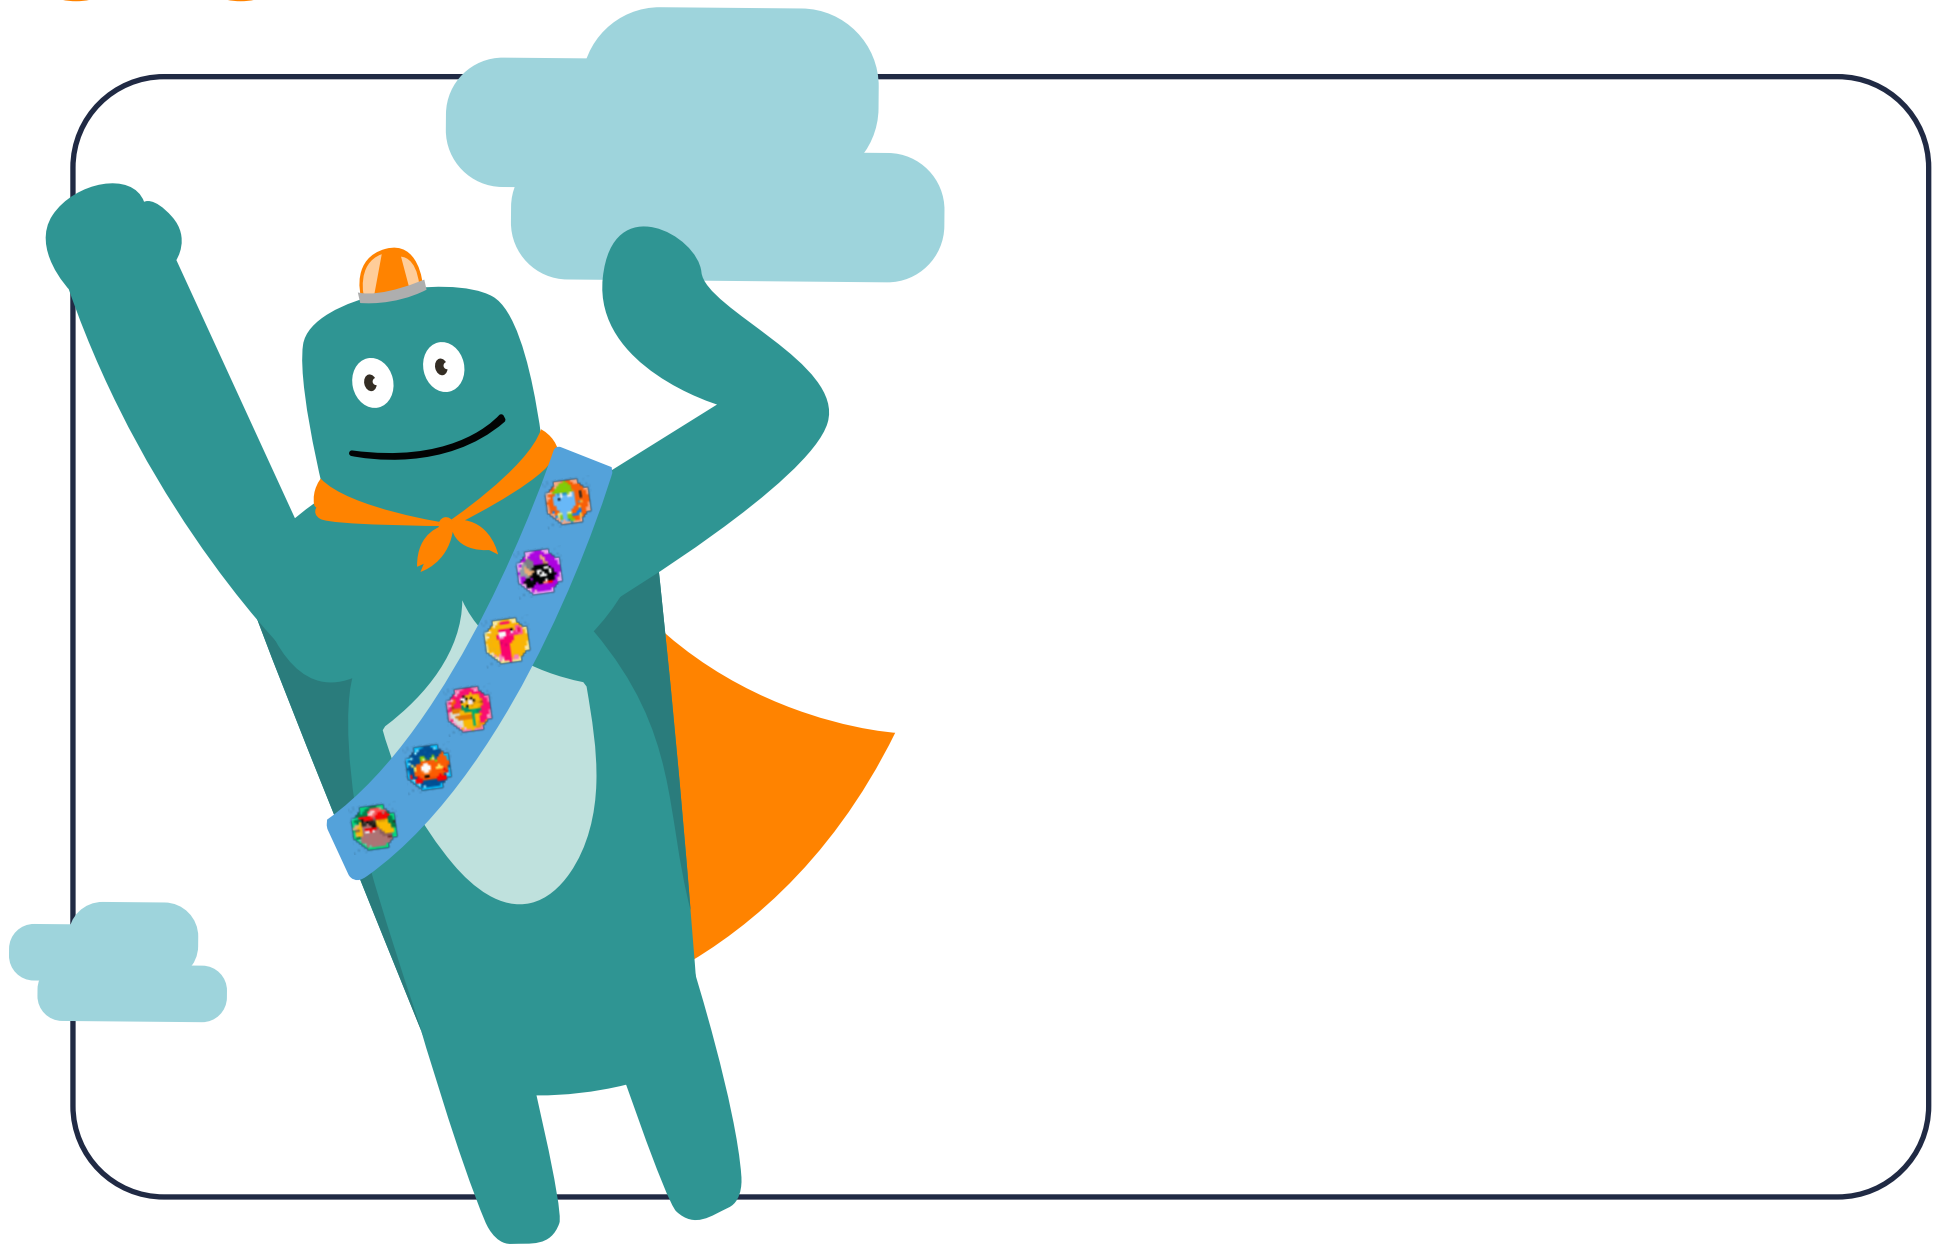

Have you seen the medal sash Antivirus is wearing? Make your own!

1. Go to page 12 of the cut-outs and cut out the badges.
2. Find a piece of cardboard in the colour of your choice and make your own sash. Ask an adult to help you!
3. Glue the badges to your sash and wear it, how does it look?
4. You can also design your own customized badges.

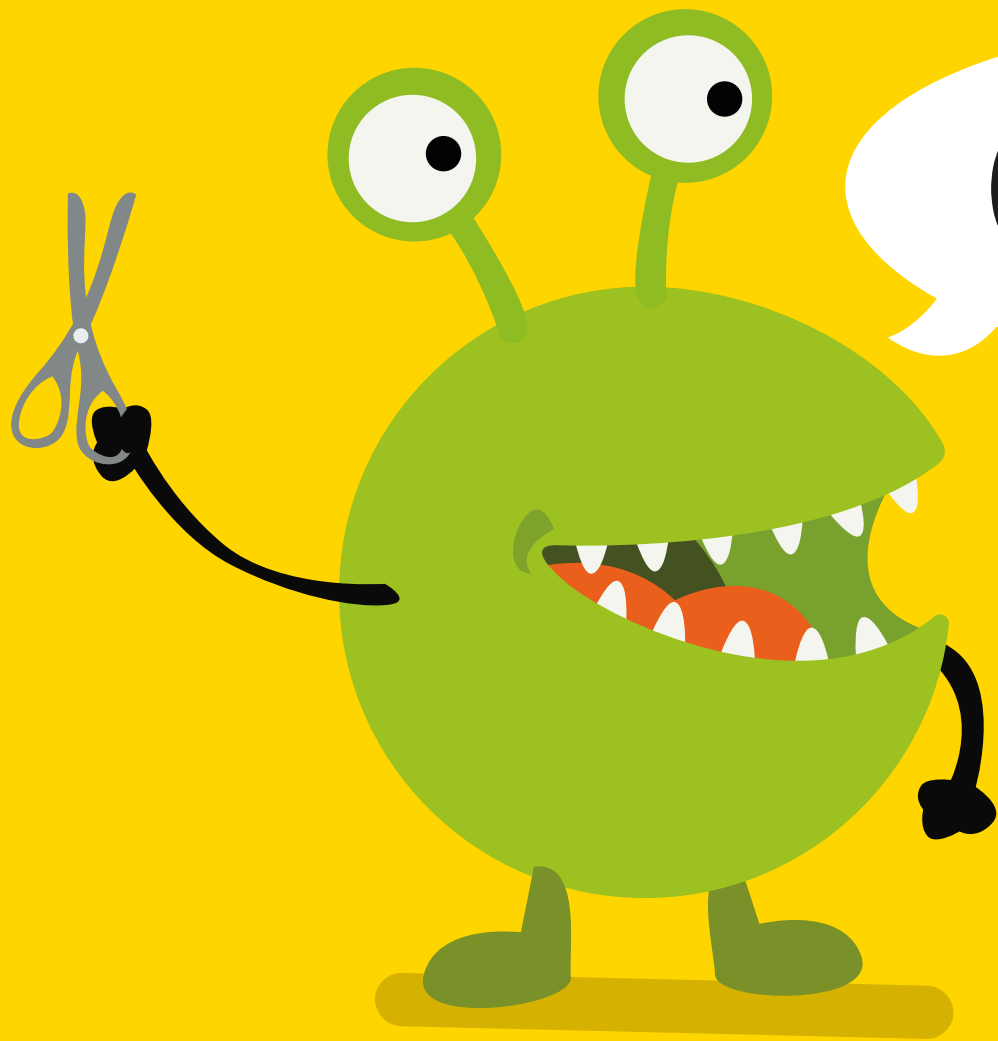

Now that you've captured all the Ishings. Draw yourself next to Antivirus!

Below you will find the solutions
to the activities and all the
cut-outs.

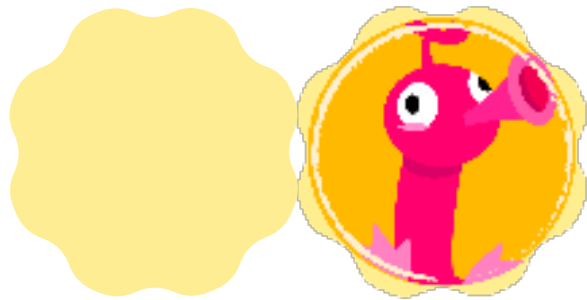

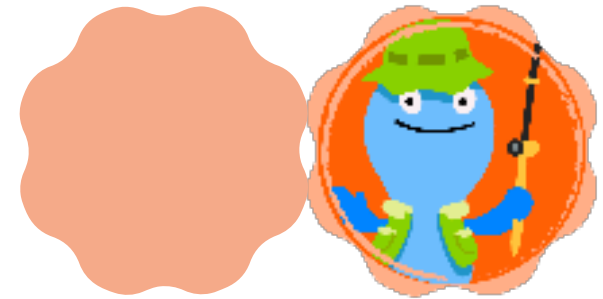

Cut-outs

Cut out the medals so you will always remember how you managed to catch all the Ishing.

Fold in half and then glue the two back sides together.

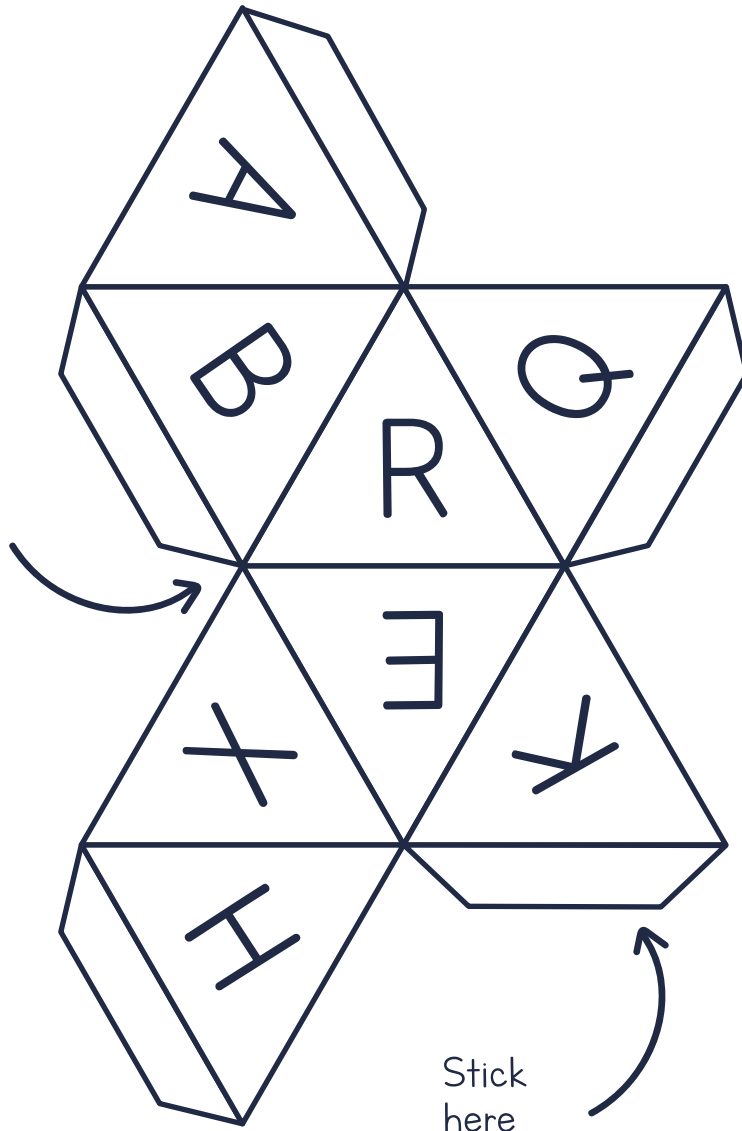

Cut out the tiles to complete the series. Warning: there are too many of them!

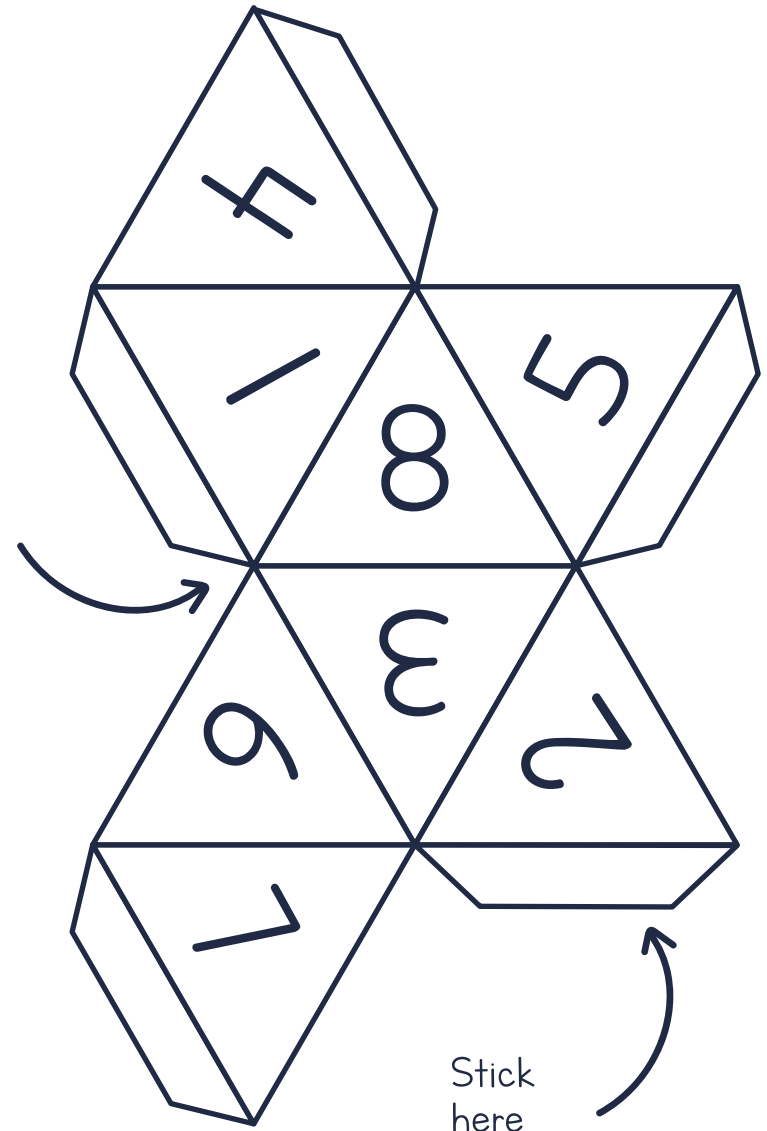

Cut out the dice.

Fold along all these lines, ask for help if you need it!

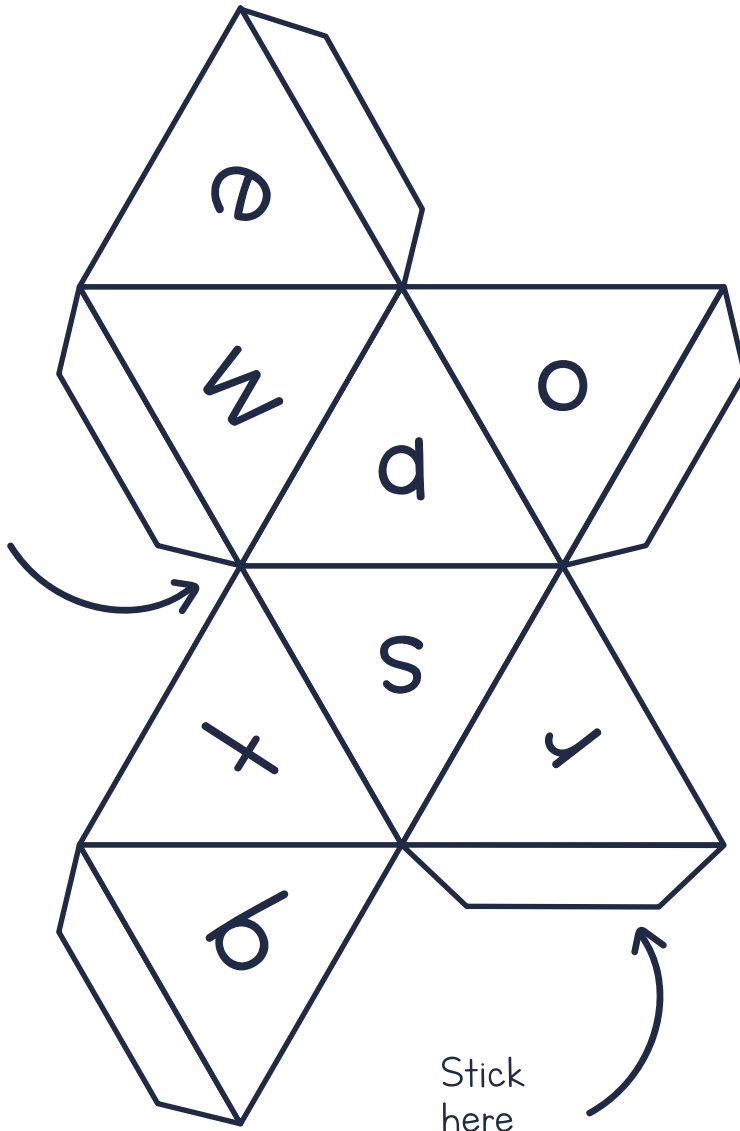

Fold along all these lines, ask for help if you need it!

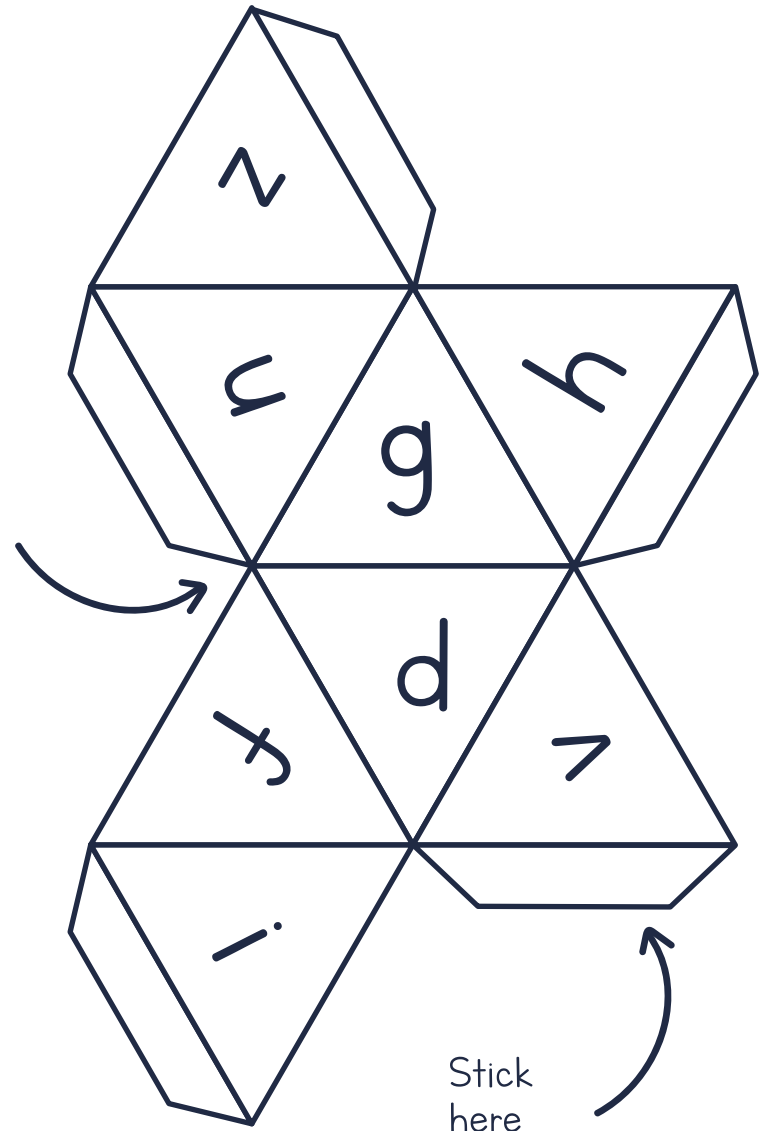

Cut out the dice.

Fold along
all these
lines, ask
for help if
you need it!

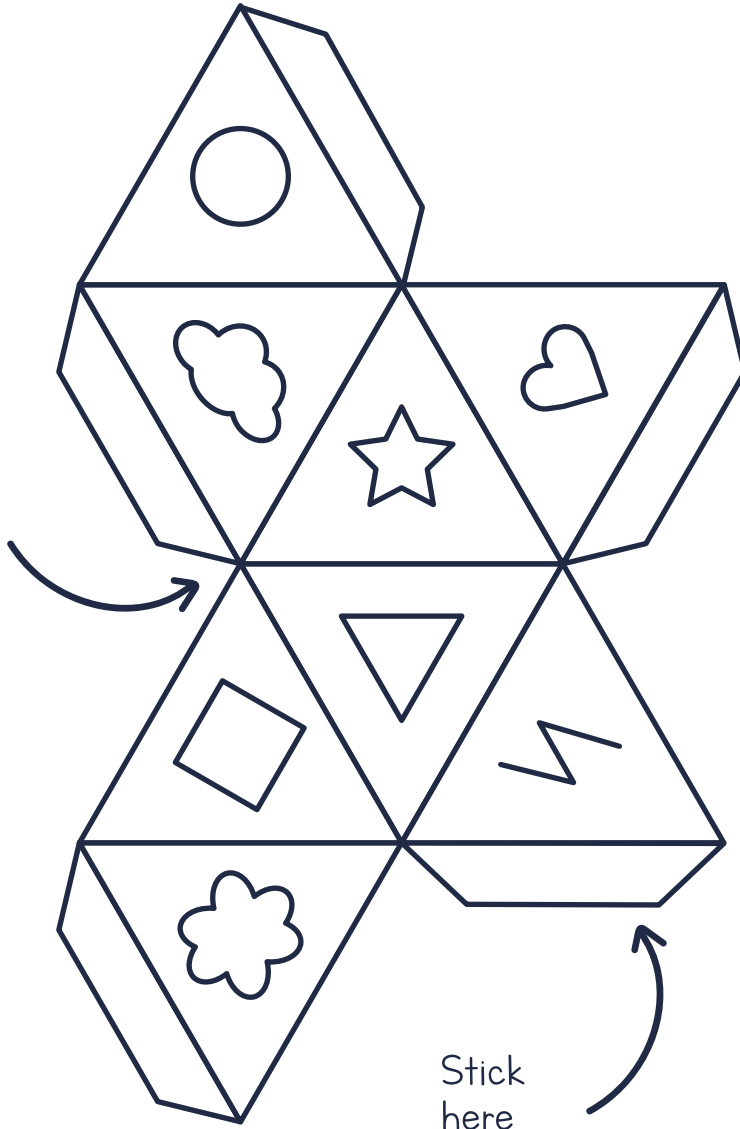

Fold along
all these
lines, ask
for help if
you need it!

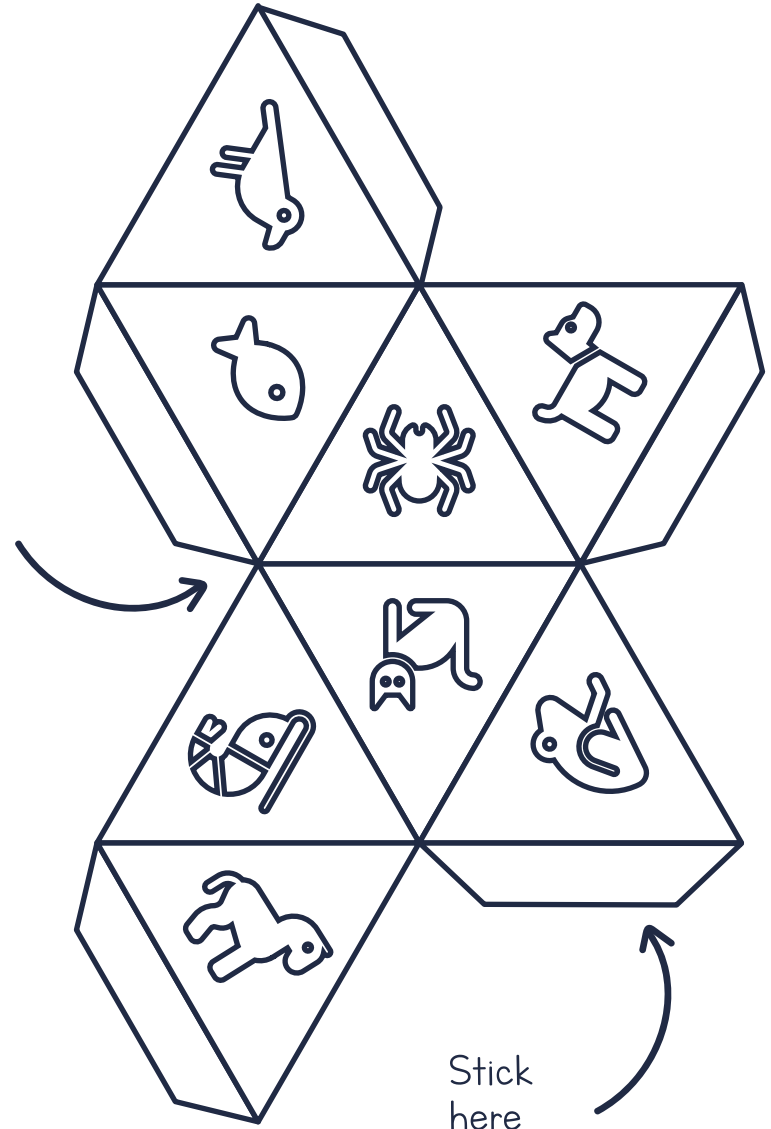

Cut out the dice.

Fold along all these lines, ask for help if you need it!

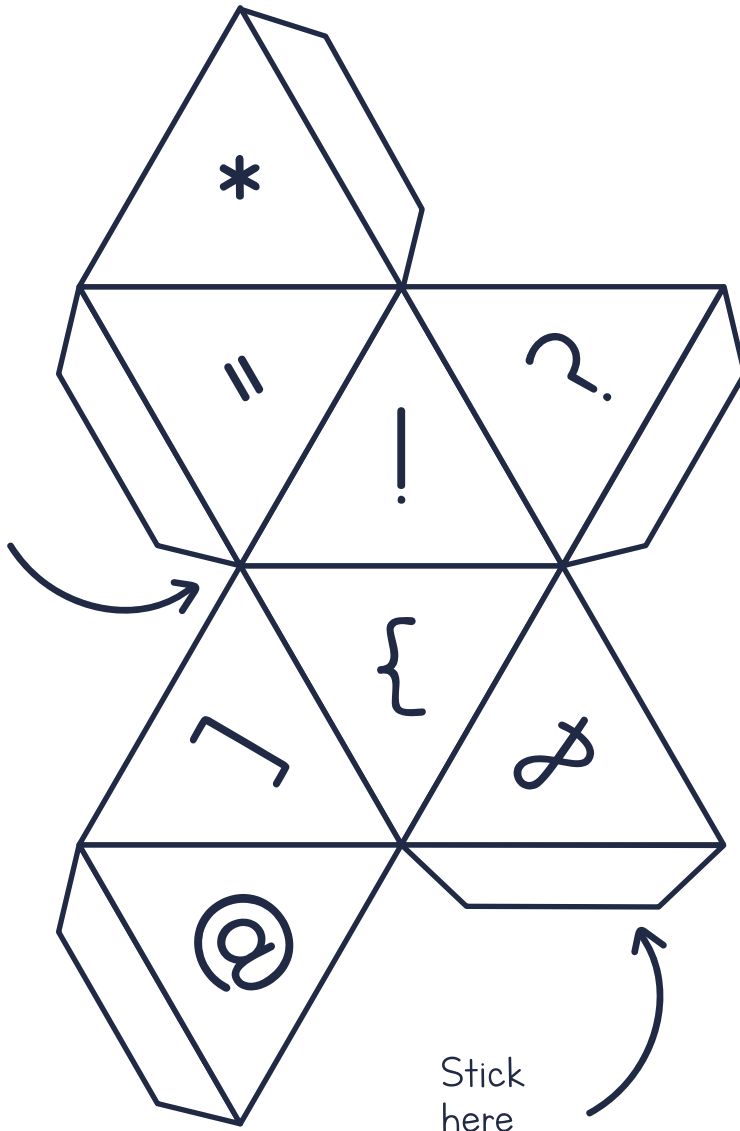

Fold along all these lines, ask for help if you need it!

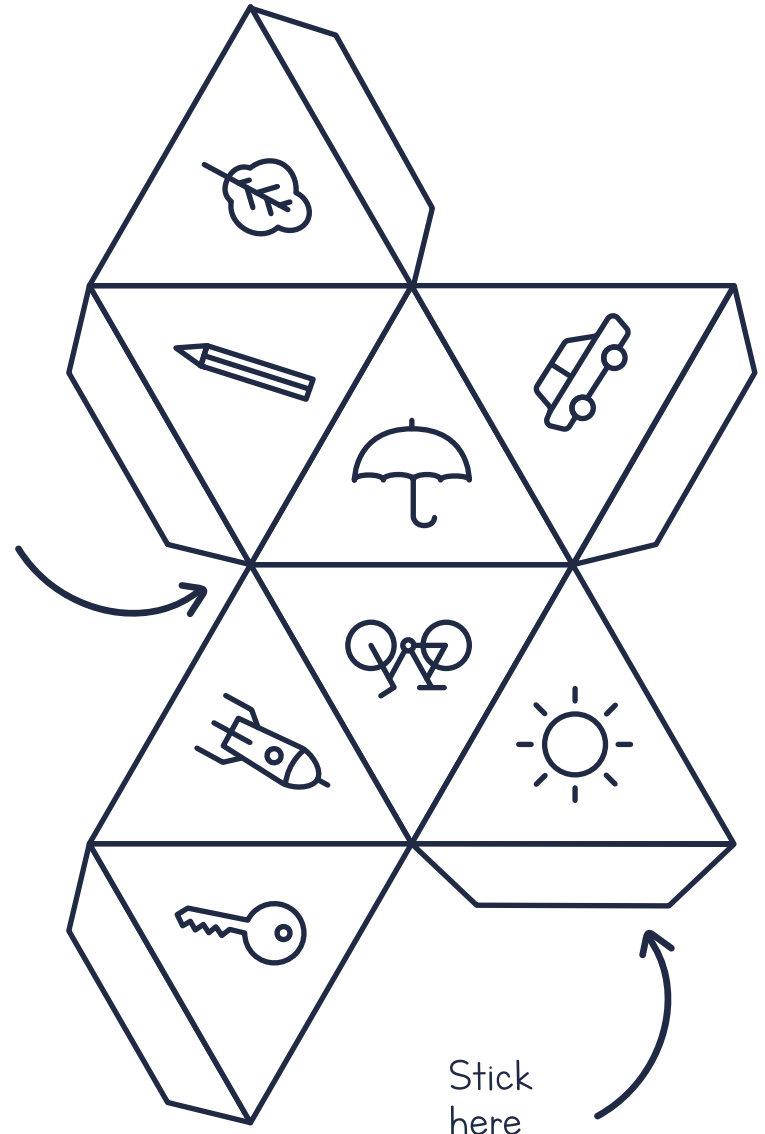

Cut out the dice.

Fold along all these lines, ask for help if you need it!

Fold along all these lines, ask for help if you need it!

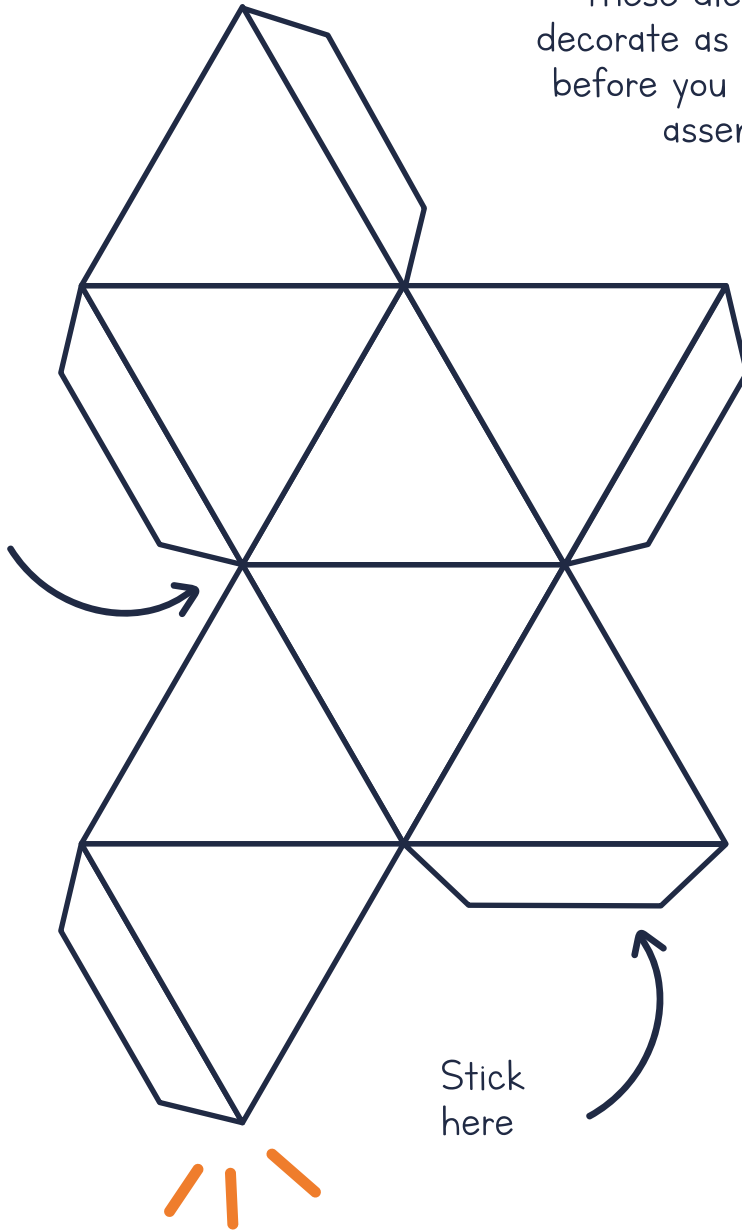

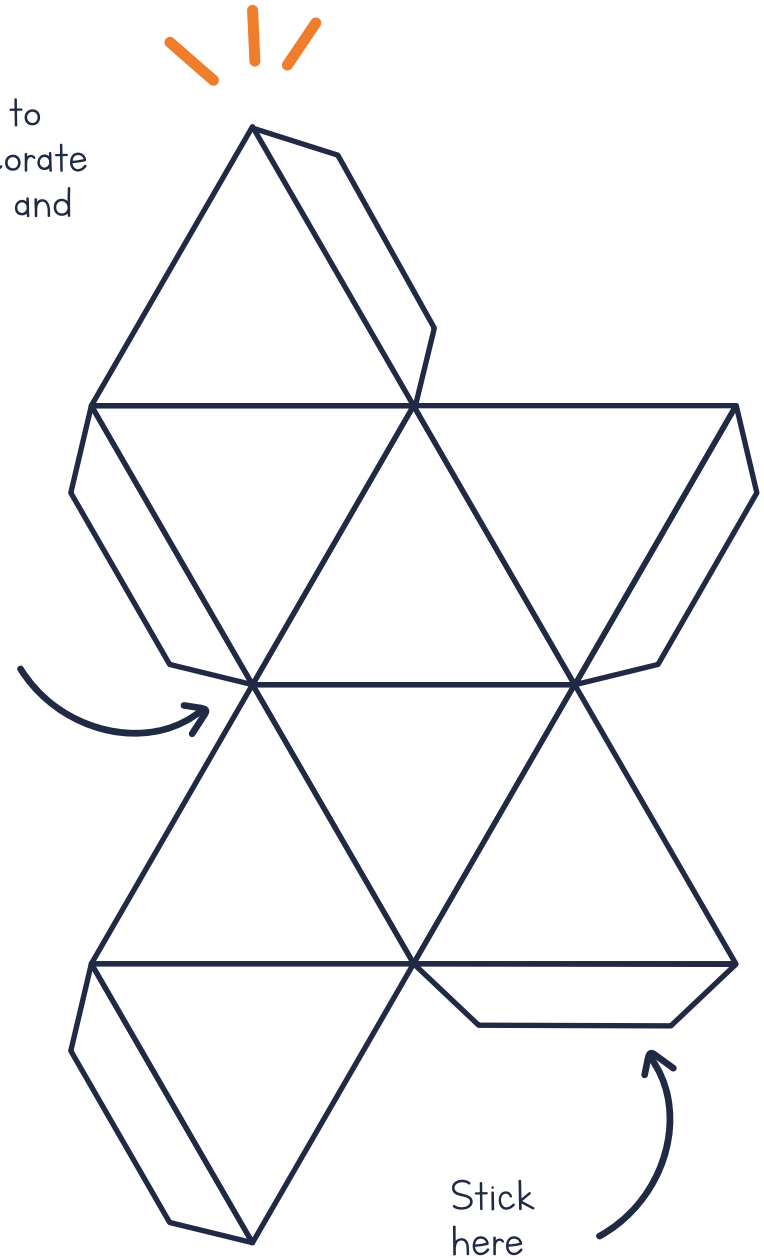

Cut out the dice.

These dice are for you to decorate as you wish. Decorate before you cut them out and assemble them!

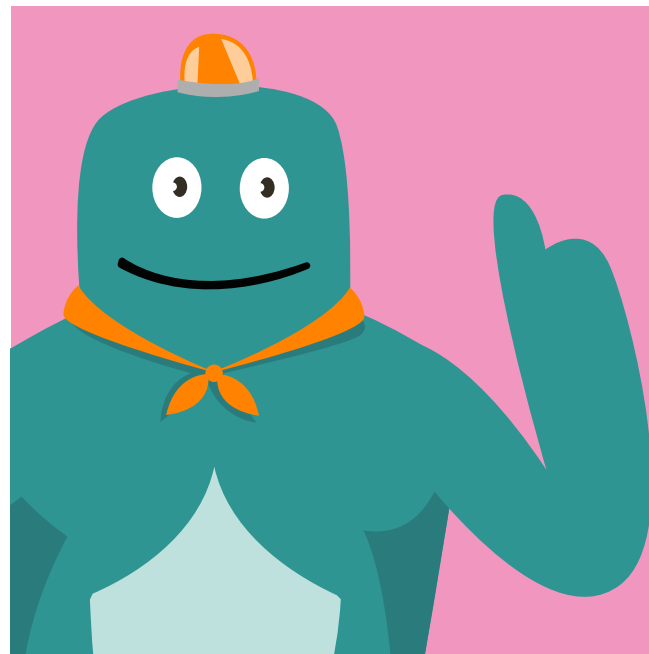

Fold along all these lines, ask for help if you need it!

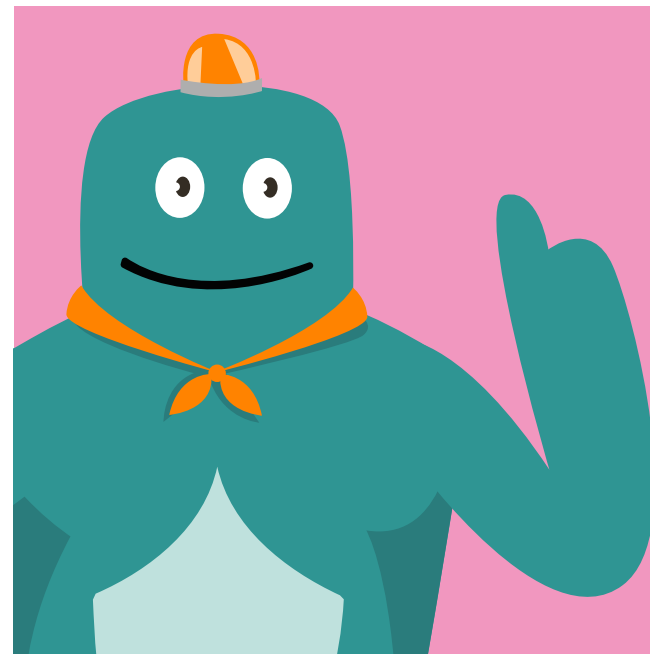

Fold along all these lines, ask for help if you need it!

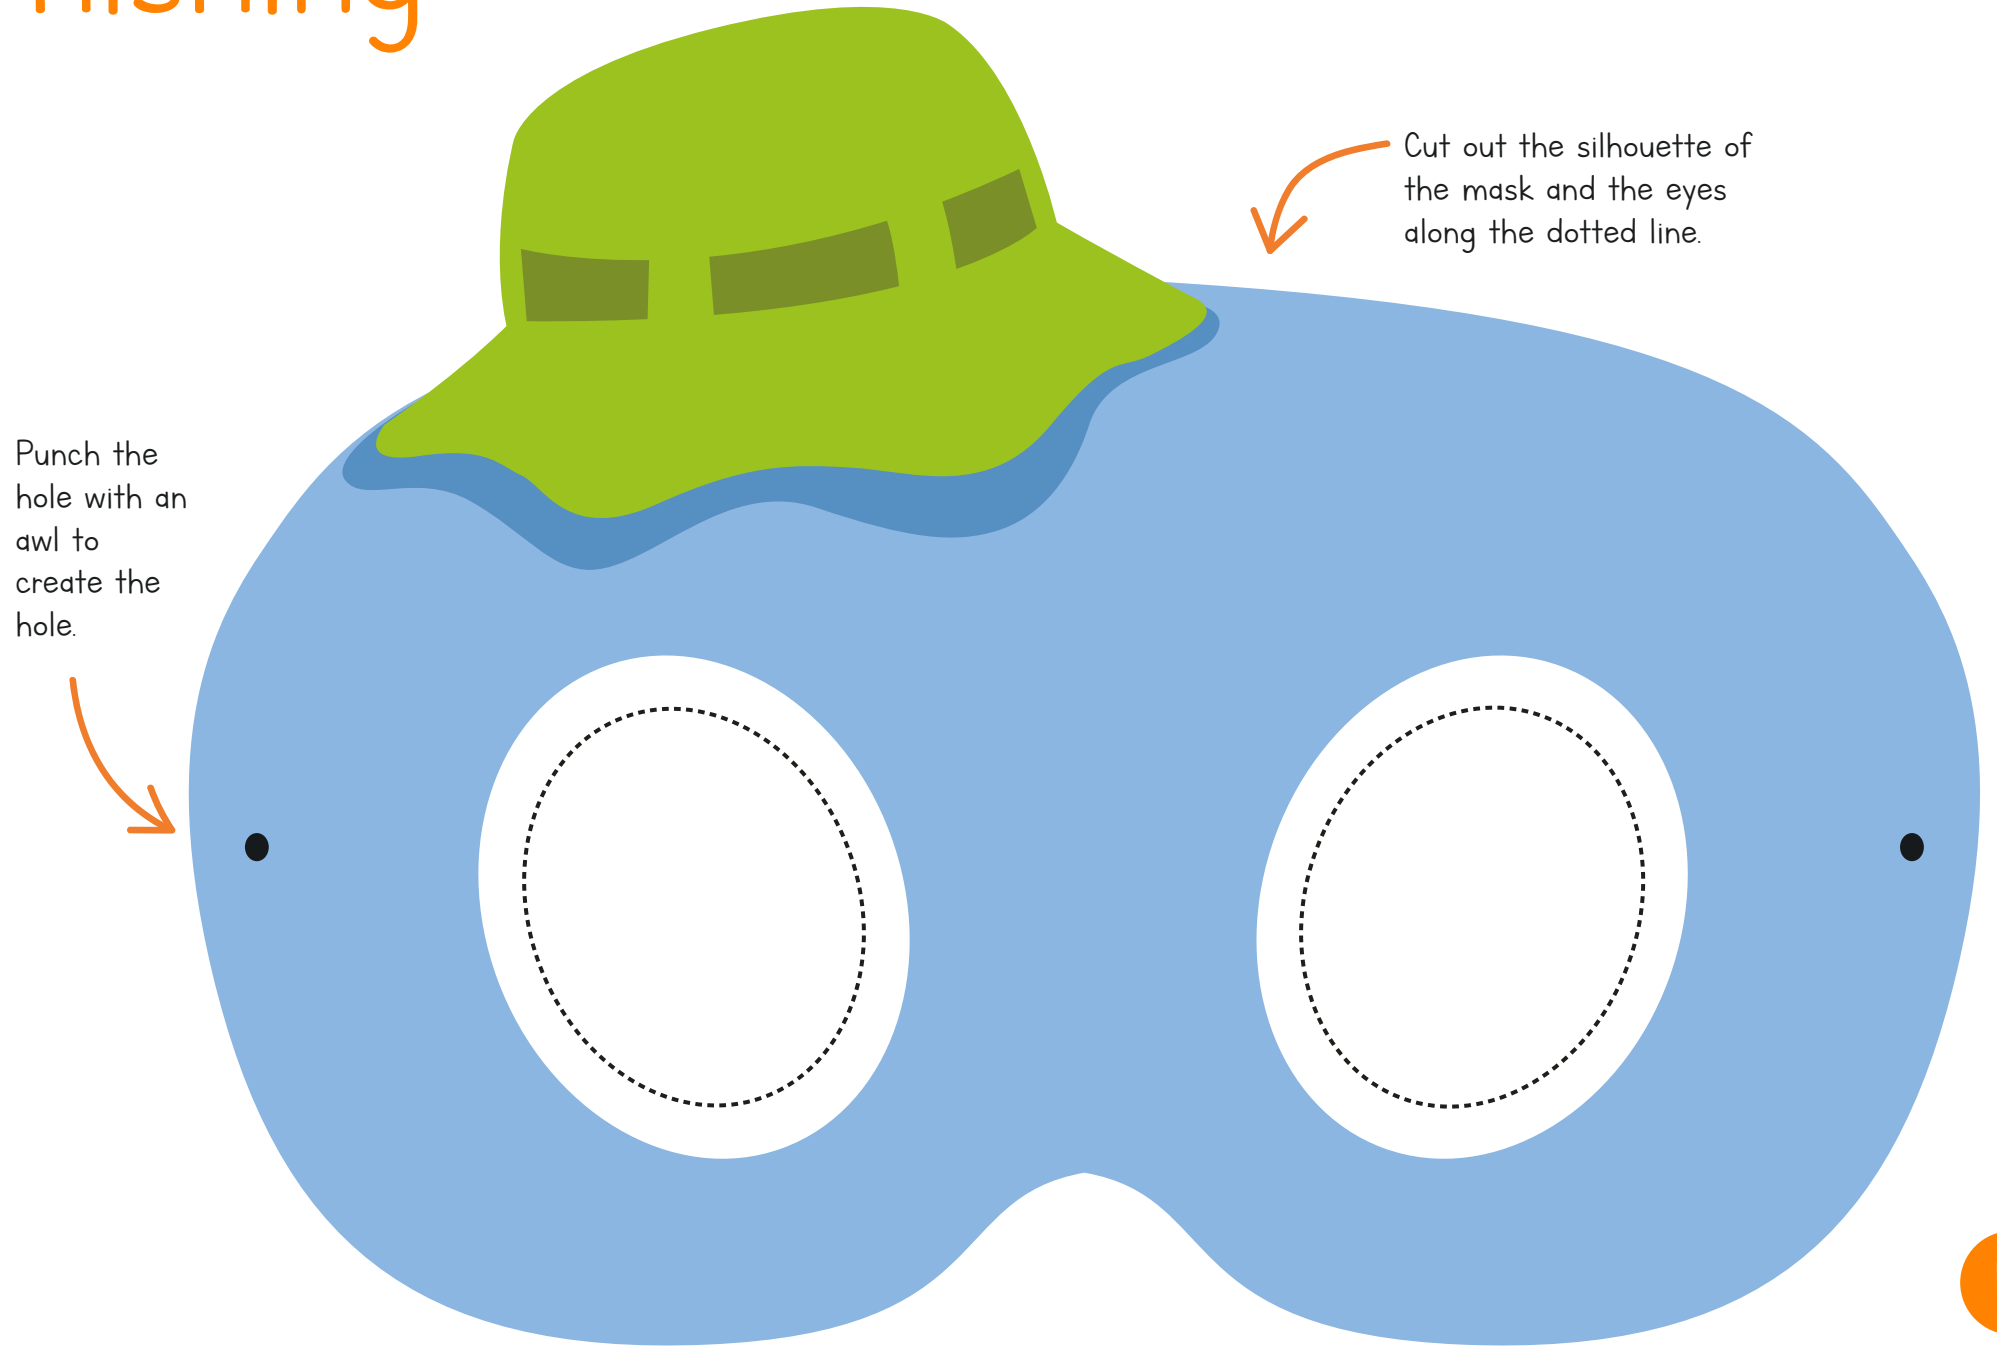

Cut out the badges for your sash.

Phishing

Cut out the silhouette of the mask and the eyes along the dotted line.

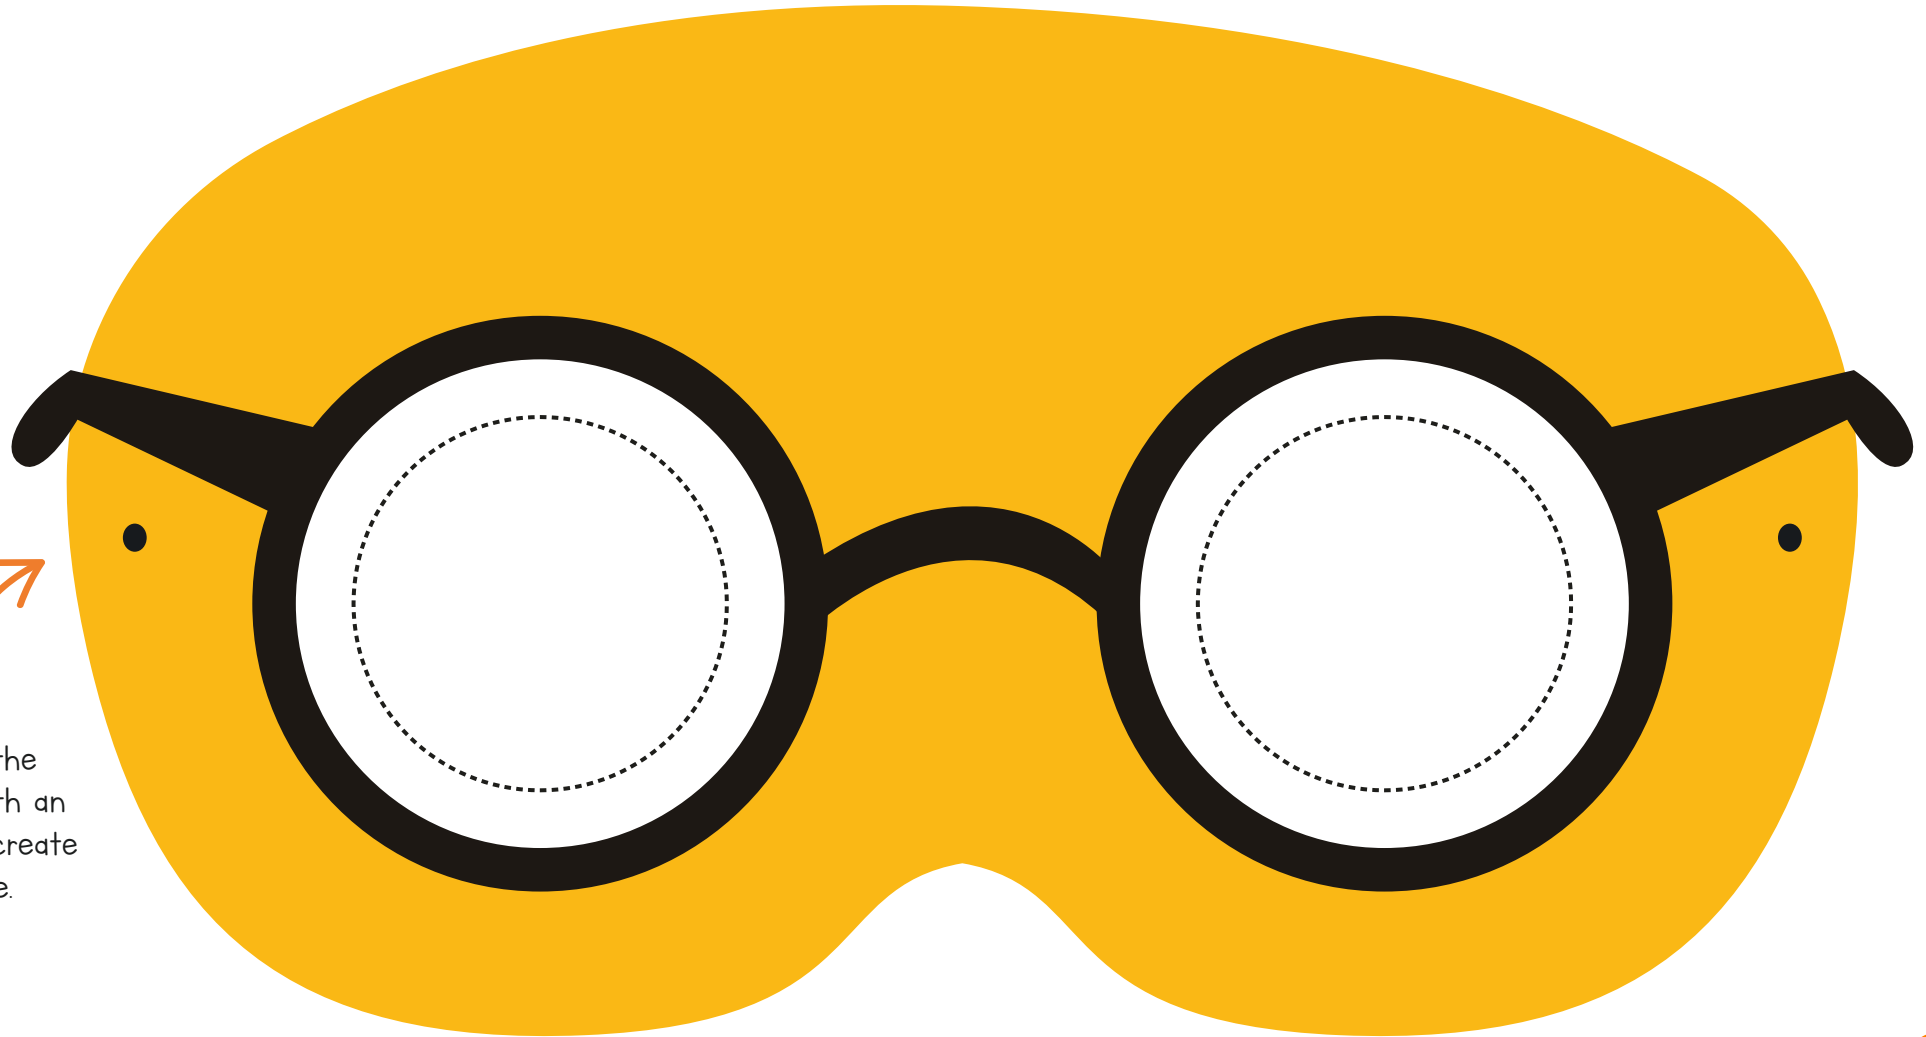

Punch the hole with an awl to create the hole.

Mr. Smish

Cut out the silhouette of the mask and the eyes along the dotted line.

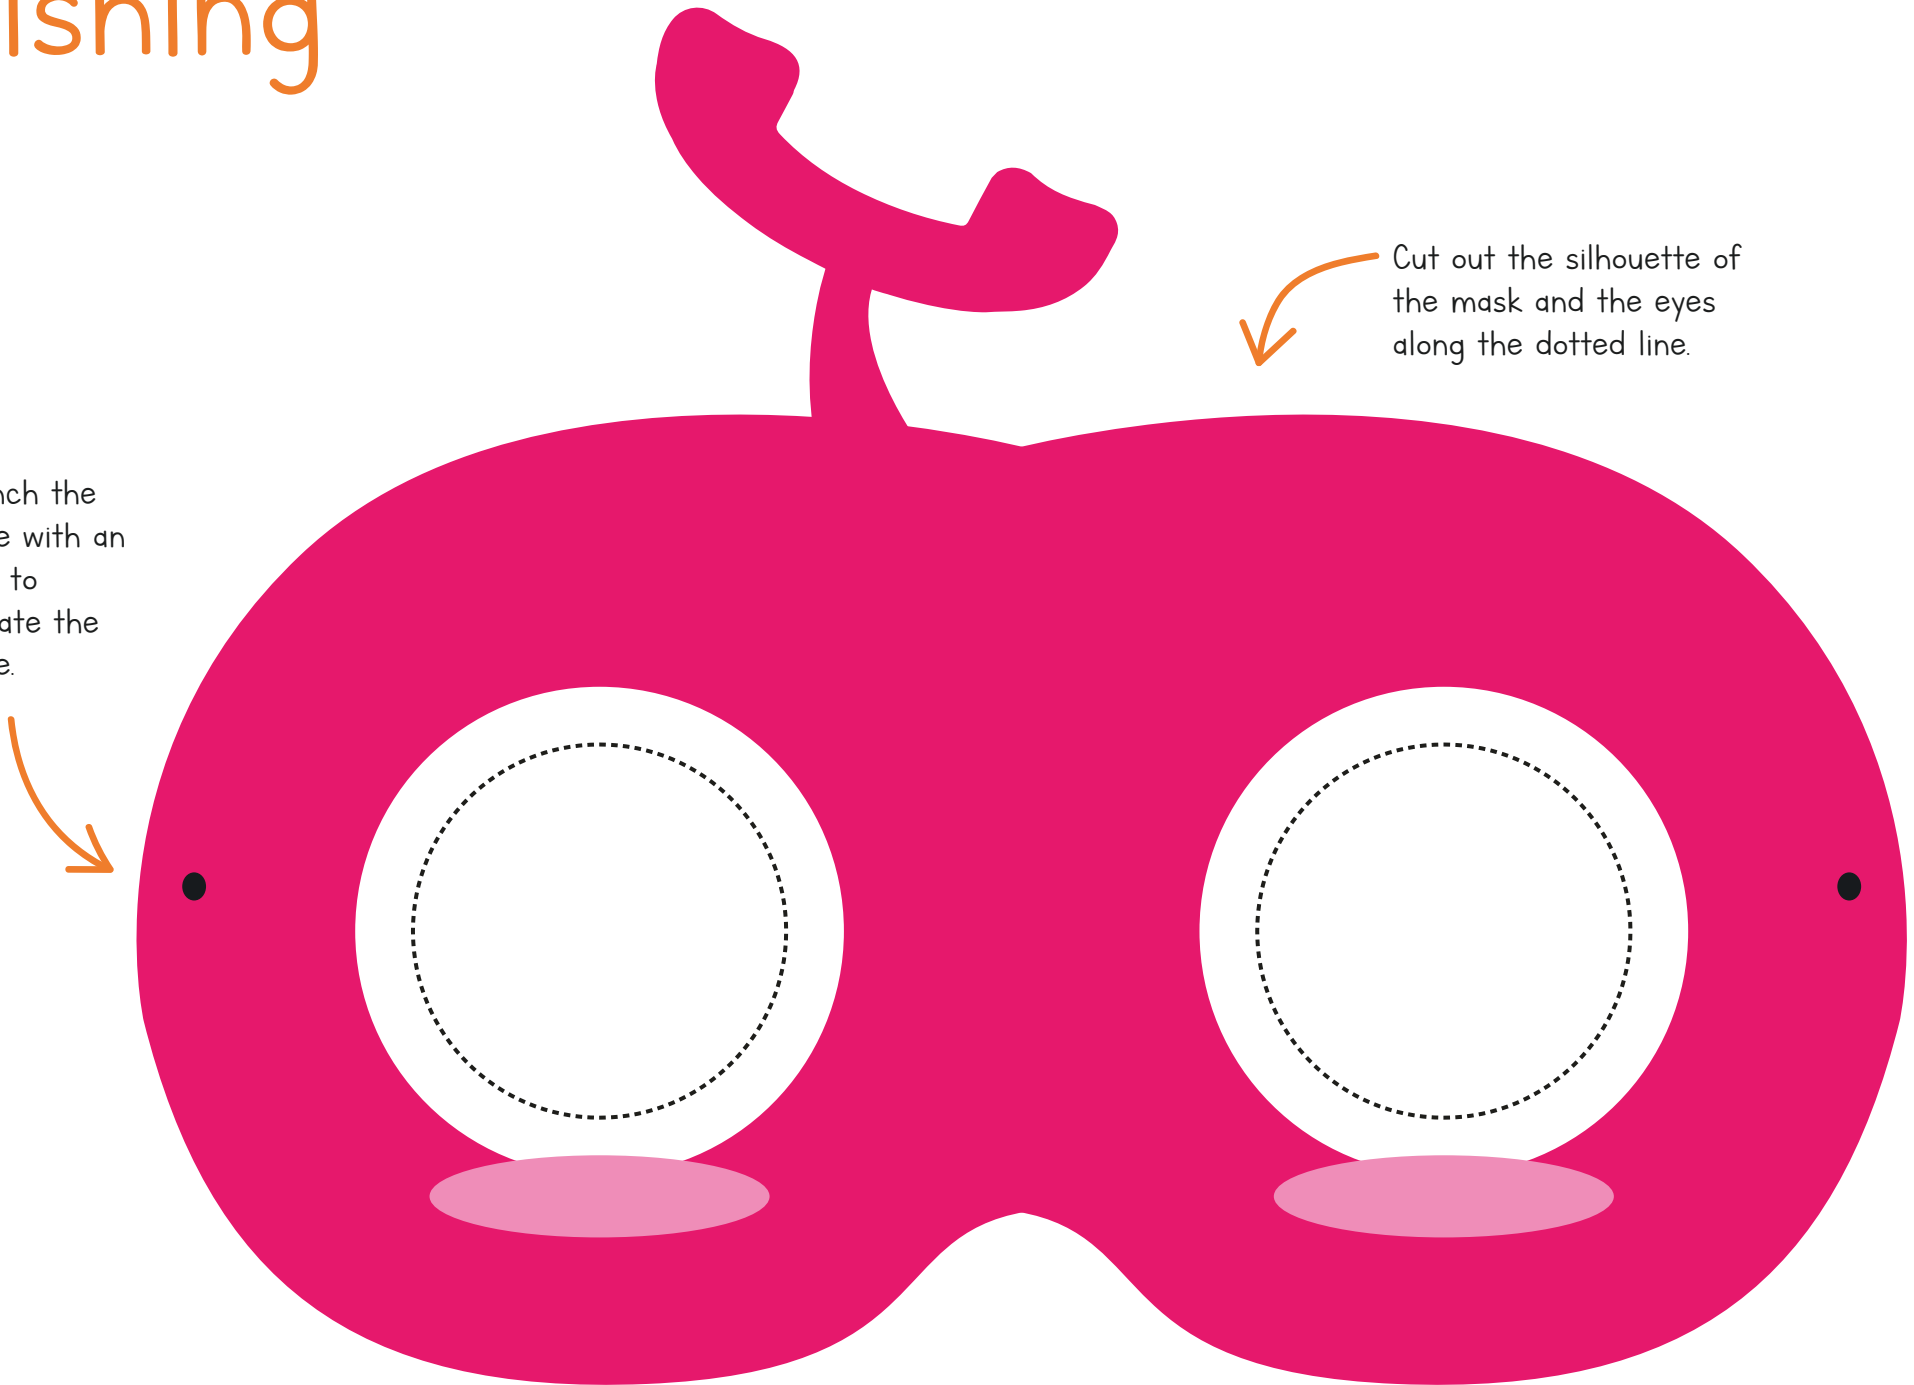

Punch the hole with an awl to create the hole.

Vishing

Punch the hole with an awl to create the hole.

Cut out the silhouette of the mask and the eyes along the dotted line.

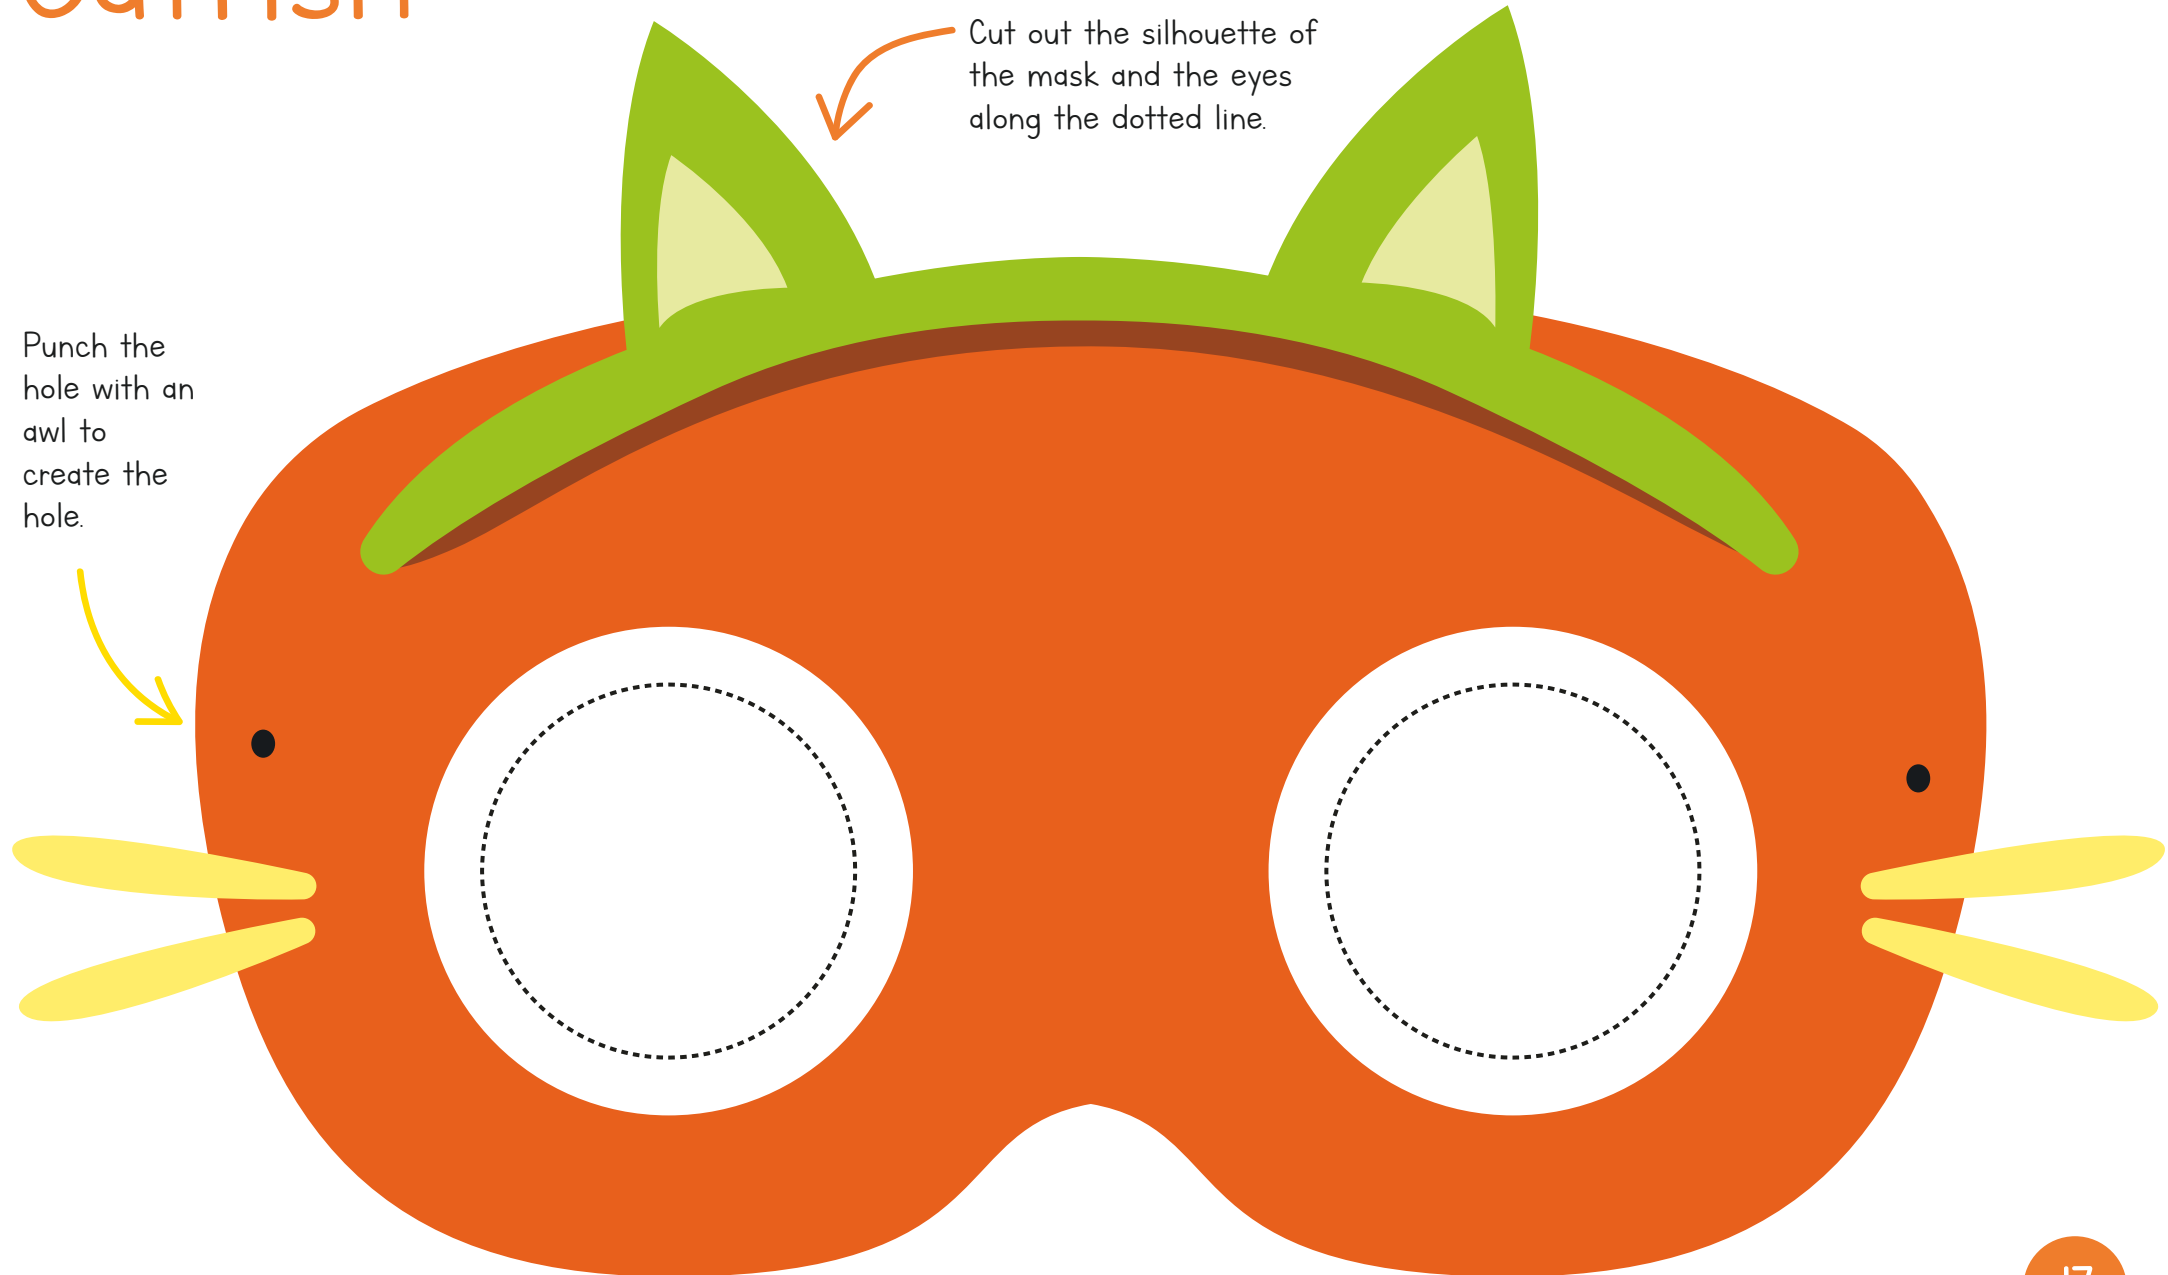

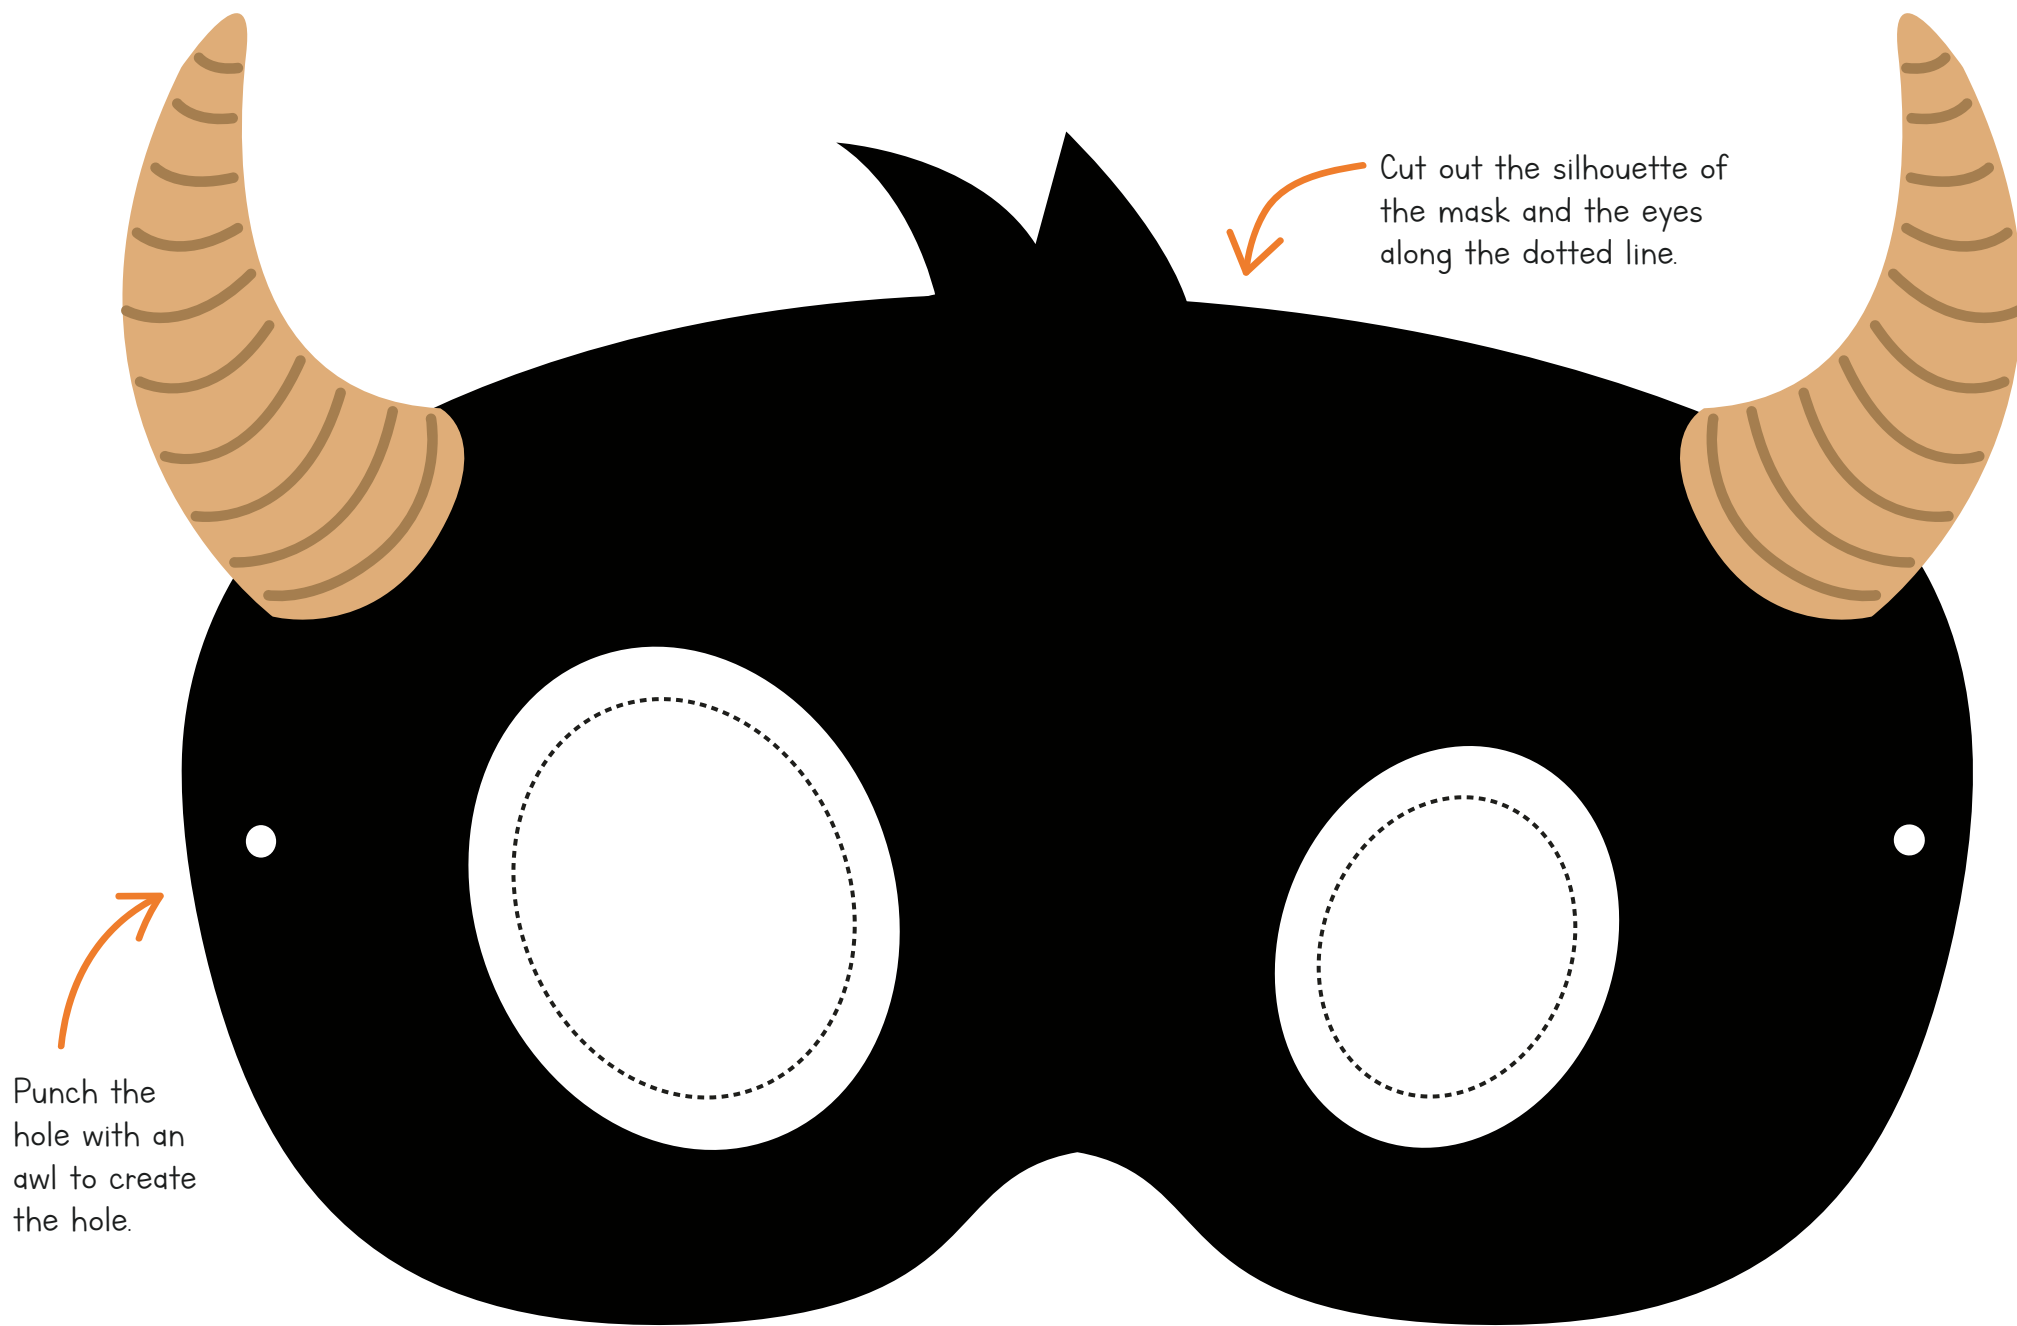

Punch the hole with an awl to create the hole.

Cut out the silhouette of the mask and the eyes along the dotted line.

Spoofer

Catfish

Punch the hole with an awl to create the hole.

Cut out the silhouette of the mask and the eyes along the dotted line.
